SFC2014 - I'm new to SFC2014, what do I need to do?

Firstly, you can read about SFC2014 and the regulations governing the application in our section About SFC2014.

Secondly, if you require access to SFC2014 you should contact your Member State Liaision (MSL) Officer who is responsible for authorising access to SFC2014.

- If you do not know who your Liaison Officer is, you can contact the SFC2014 Support Team (https://sfc.ec.europa.eu/en/2014/contact-us) requesting the email address of your Liaison and mentioning the Country and Fund(s) for which you require access.
- When requesting access to your MSL you will need to have created an **EU Login account**. The European Commission Authentication System (**EU Login**) is the service allowing users to access most of the digital systems developed or used by the European Institutions.
- To create an EU Login account you can follow the instructions in our step-by-step video tutorial on Creating an EU Login account. Your MSL will ask you for your Unique identifier at the Commission (**uid**) once your EU Login account has been created. You can find this information by following step 4 of this video tutorial.

Finally, once your access has been granted, you will receive an email confirming your account details. You can then connect to SFC2014 via https://webgate.ec.europa.eu/sfc2014/frontoffice/ui using you **EU Login Username** and **Password**.

If you require further support a number of different Help resources are available in the SFC2014 Portal. If you cannot find the information you require here, do not hesitate to contact the SFC2014 Support Team at https://sfc.ec.europa.eu/en/2014/contact-us
