

Is there any documentation with recommendations for setting targets for common indicators?

Following a learning seminar organised in 2013 by the EC, two background papers present methodologies for setting and adjusting quantified cumulative targets related to employment and social inclusion (“ESF performance target setting and adjusting in social inclusion” and “Setting and adjusting targets for ESF Operational Programmes”), available at: <http://ec.europa.eu/esf/main.jsp?catId=67&langId=en&newsId=8174>
