PA - Accounting Period list - I want to create a new Payment Application but the Accounting Period list is empty. What should I do?

If the Accounting Period list is empty this is not an error. Please verify if:

for an Interim Payment Application:

- the DOA has been sent (in time for the current Accounting Period),
- a previous Interim Payment Application is **not 'Open'**,
- the Final Payment for the previous required Accounting Period has been sent,
- the Final Payment Application for the current Accounting Period does not exist yet,
- the Interim Payment Application can be created **until the 30/06/ of year N.**

for a Final Payment Application:

- the DOA has been sent,
- all existing versions (last working version) are **'Sent'** to the Commission, **'Cancelled'**, **'Fully Rejected by EC'** or **'Accepted by EC'**,
- the Final Payment Application for the current Accounting Period does not exist yet,
- the Final Payment can be created **between 1/07/N and 31/07/N.**
