ACC - Why can I no longer see the option to send the document type "Other Member State Document" in the Accounts?

The removal of the option to send the 'Other Member State Document' type in the Accounts was requested by DG EMPL & DG MARE and implemented in October 2016.

Information should be included in the Accounts as Structured data and with the integral/non-integral documents when needed.

The option of the 'Other MS Document' is still in the menu because one must be able to select the already existing 'Other MS Documents', but it will no longer be possible to send new ones.
