NAR - Documents - I want to upload & send an 'Other MS Document' but I can't, why does it not appear in the list?

You can upload an 'Other MS document' in the documents section of the NAR but only when the report has reached a final status on the Commission side and its status is "**Analysed by EC (Observations)**" or "**Analysed by EC (No observations; to be followed-up in the next annual bilateral meeting)**" or "**Analysed by EC (Conclusions transmitted to the authorising officer by delegation, cf. Article 83(1.a) CPR)**".

If you need to submit a document before the Commission assessment you will have to upload and send the document in SFC2014 as a **Letter to the Commission** under the Utilities menu.
