ACC - Delete Link - Why the 'delete' link does not appear anymore?

The Implementation Report & Accounts versions for AMIF/ISF **cannot be completely deleted anymore**, so the permissions on the delete action were removed and the link ‘Delete’ will not appear among your options.

In case you need to delete the whole IR or Accounts, you will have to ask your Desk-Officer who will analyse case by case and if they confirm, we will temporarily grant the delete action to you.
