AIR - Section 11 - Table B2.2 - M19, 6A - Indicator T20 calculation

In Table B2.2, the data monitored are from LEADER, therefore the value in terms of jobs created is the data from the LEADER T23. It is associated to the Focus Area 6A because the target indicator of 6A is also in jobs created.

The value in **Table B2.2** for the indicator **T20** under M19, 6A is calculated by the system once the relevant cells are filled for indicator **T23** in **Table D** :
