

OP - S2 Indicators - How do I add COVID19 specific indicators?

If you need to add Covid-specific indicators there is a set of pre-defined indicators/codes that you can use.

The new COVID indicators are not in the drop down list for common result/output indicators – you must enter them manually as a new programme specific indicator and when you click on 'update' the system then checks if it's a 'reserved' code for COVID. Once defined it can be reused like the other already defined specific indicators.

The screenshot displays a web application interface for editing details. A modal dialog box titled "Confirm" is overlaid on the form. The dialog box contains the following text: "You are using a COVID-19 reserved programme specific output indicator code. The title and measurement unit will be overwritten with their reserved values, if this was not your intention, press cancel." Below the text are "Cancel" and "Ok" buttons. The background form is titled "Edit Details" and shows the following fields: "Priority axis" (A.1 - Stärkung der regionalen Wettbewerbsfähigkeit durch Forschung, technologische Entwicklung und Innovation), "Investment priority" (1a. Enhancing research and innovation (R&I) infrastructure and capacities to develop R&I excellence, and promoting centres of competence, in...), "Selection or definition of output indicator" (with radio buttons for "Common output indicator", "Programme-specific output indicator", and "New programme-specific output indicator" which is selected), "ID" (CV23), "Indicator" (I), "Measurement unit" (no), "Order" (9), "Category of region", "Total Target Value (2023)" (10.00), "Min target value (2023)", "Women target value (2023)", "Source of data", and "Frequency of reporting". At the bottom of the form are "Update" and "Cancel" buttons.

You will receive an error message if you are trying to use a Covid-specific indicator that is not defined for the chosen fund.

The following Covid-specific indicator IDs are reserved for future use and shouldn't be used :

CODE	DESCRIPTION	MEASUREMENT_UNIT
CV16	RESERVED - code not available	Reserved
CV17	RESERVED - code not available	Reserved
CV18	RESERVED - code not available	Reserved
CV19	RESERVED - code not available	Reserved
CV36	RESERVED - code not available	Reserved
CV37	RESERVED - code not available	Reserved
CV38	RESERVED - code not available	Reserved
CV39	RESERVED - code not available	Reserved
CVR6	RESERVED - code not available	Reserved
CVR7	RESERVED - code not available	Reserved
CVR8	RESERVED - code not available	Reserved
CV65	RESERVED - code not available	Reserved
CV66	RESERVED - code not available	Reserved
CV67	RESERVED - code not available	Reserved
CV68	RESERVED - code not available	Reserved
CV69	RESERVED - code not available	Reserved
