

# RDP - NGEU(EURI) - Programming of EURI into the RDPs – technicalities

## Programming of EURI into the RDPs – technicalities

All RDP chapters can be amended as appropriate. For introducing the EURI funds, the following RDP chapter have to be amended in particular.

### Chapter 5 - strategy

Where relevant, the strategy should be updated to include the new challenges (crisis response and recovery) and to take into account the extension of the programming period. The additional funds may allow Member States to address needs that previously could not have been included due to financial limitations. Possibly to mention new measures to be programmed. Respect to the overall objective of the EURI needs to be ensured.

### Chapter 7 – performance framework

Table 7.1 has been changed:

Novelty: Targets refer to 2025 (instead of 2023), and column “c” “adjustment EURI” was added. (EURI article 59(4)(ea) must be selected beforehand in chapter 10.0)

## 7 DESCRIPTION OF THE PERFORMANCE FRAMEWORK

### *Indicators*

APPLICABLE	PRIORITY	INDICATOR AND MEASUREMENT UNIT, WHERE APPROPRIATE	TARGET 2025 (A)	ADJUSTMENT TOP UPS (B)	
<input checked="" type="checkbox"/>	P2	Total Public Expenditure P2 (EUR)	123,928,733.00		
<input checked="" type="checkbox"/>	P2	Number of agricultural holdings with RDP support for investment in restructuring or modernisation (focus area 2A) + holdings with RDP supported business development plan/investment for young farmers (focus area 2B)	960.00		

For each common performance framework indicator, the target values need to be updated in line with the indicator plan – this is done automatically by SFC. In addition, the new column “c” needs to be filled in, corresponding to the EURI planning of outputs in the indicator plan – this is done automatically by SFC.

For each program specific performance framework indicator these data fields need to be filled in manually.

Note: The target absolute value (far right column) does not take into account the top-ups nor the EURI.

## Chapter 8 – measure descriptions

Possibly introduction of new measures or sub-measures according to updated strategy.

All measure descriptions, which will be the basis for EURI funded operations, needs to be expanded by separate paragraphs describing the measure features that apply to the EURI supported operations. Alternatively, the separate EURI measure description may be integrated in the existing text, editorially clearly separating the descriptions applicable for the different financial sources.

Where the existing measure description is intended to apply one-to-one to the EURI programming, this can be acknowledged by adding a simple sentence to that effect, provided it complies with the specificities of the EURI regulation.

Respect to the overall objective of the EURI needs to be ensured.

## Chapter 10 – financing plan

The financing plan has been adapted to introduce separate EURI financial allocation to measures by focus area.

1. To activate EURI planning in the financing plan, the derogation option for EURI needs to be enabled in chapter 10.0:
  - Article 59(4)(ea) of regulation (EU) No 1305/2013

## 10 FINANCING PLAN

### 10.0 Contribution rates

*Category of contribution rates [At least one is mandatory]*

- ☐ Article 59(3)(a) of Regulation (EU) No 1305/2013 - Less developed regions & outermost regions and in the smaller Aegean islands
- ☐ Article 59(3)(b) of Regulation (EU) No 1305/2013 - All regions whose GDP per capita for the 2007-2013 period was less than 85% of the EU-27 average
- ☐ Article 59(3)(c) of Regulation (EU) No 1305/2013 - Transition regions other than those referred to in Article 59(3)(b)
- ☐ Article 59(3)(d) of Regulation (EU) No 1305/2013 - Other regions

*Derogations [Optional]*

- ☐ Article 59(4)(a) of Regulation (EU) No 1305/2013 - Measures referred to in Articles 14, 27 and 35, for the LEADER local action groups
- ☐ Article 59(4)(b) of Regulation (EU) No 1305/2013 - Operations contributing to the objectives of environment and climate change
- ☐ Article 59(4)(d) of Regulation (EU) No 1305/2013 - Measures contributing to financial instruments referred to in Article 3 of Regulation (EU) No 1303/2013
- ☒ Article 59(4)(ea) of Regulation (EU) No 1305/2013 - EURI(NGEU) / Operations receiving funding from additional resources
- ☐ Article 59(4)(f) of Regulation (EU) No 1305/2013 - Additional allocation for Ireland, Portugal and Cyprus
- ☐ Article 59(4)(g) of Regulation (EU) No 1305/2013 - Member States receiving on 1 January 2014 or thereafter financial assistance from the ECUF
- ☐ Article 59(4)(h) of Regulation (EU) No 1305/2013 - Contribution rate referred to in Article 39a(13) of Regulation (EU) No 1303/2013
- ☐ Discontinued measures - Discontinued Measure

*Others allocations [Optional]*

- ☐ Article 51(2) of Regulation (EU) No 1305/2013 - Technical Assistance
- ☐ Article 59(4)(e) of Regulation (EU) No 1305/2013 - Operations receiving funding from funds transferred to the EAFRD in the context of the 2007-2013 programming period
- ☐ Regulation (EC) No 73/2009 - Article 10b and Article 136

2. In chapter 10.1 the annual allocations for EURI need to be manually encoded in the line for Article 59(4)(ea) of regulation (EU) No 1305/2013 for the years 2021 and 2022:

## 10 FINANCING PLAN

### 10.1 Annual EAFRD contributions in (€)

TYPES OF REGIONS AND ADDITIONAL ALLOCATIONS / BUDGET CODE	2014	2015	2016	
Article 59(3)(b) of Regulation (EU) No 1305/2013 - All regions whose GDP per capita for the 2007-2013 period was less than 75 % of the average of the EU-25 for the reference period but whose GDP per capita is above 75 % of the GDP average of the EU-27				
Article 59(4)(e) of Regulation (EU) No 1305/2013 - Operations receiving funding from funds transferred to the EAFRD in application of Article 7(2) and Article 14(1) of Regulation (EU) No 1307/2013				
<b>Total EAFRD (without EURI)</b>				
Out of which performance reserve (Article 20 of Regulation (EU) No 1303/2013)	5,417,259.48	5,410,135.20	5,402,864.52	
Article 59(4)(ea) of Regulation (EU) No 1305/2013 - EURI(NGEU) / Operations receiving funding from additional resources referred to in Article 58a(1)				
<b>Total (EAFRD + EURI)</b>				

- In chapter 10.3 financial EURI allocations have to be added for each measure foreseen by the Member State. In the below example, EUR 1 million is added from the EURI to M4 programmed under P4.

## 10 FINANCING PLAN

### 10.3 Breakdown by measure or type of operation with a specific EAFRD contribution rate (in € total period 2014-2020)

M04 - Investments in physical assets (art 17)

TYPES OF REGIONS AND ADDITIONAL ALLOCATIONS / BUDGET CODE
Article 59(3)(d) of Regulation (EU) No 1305/2013 - Mainstream 08030102 04 411 00
Article 59(3)(d) of Regulation (EU) No 1305/2013 - Article 59(4)(ea) of Regulation (EU) No 1305/2013 (EURI)NGEU 08030103 04 911 00
<b>Total (€)</b>

## Chapter 11 – indicator plan

### Target indicators:

When the total public envelope of the RDP changes due to addition of national funds or changes in the EAFRD envelope, target indicator values should be changed (including the program specific ones). Usually, the addition of financial resources will allow to plan higher targets. All target indicators need to be reviewed in line with the updated RDP strategies, referring to implementation objectives in 2025. Especially in the focus areas where the EURI will be allocated, a planning update needs to be done. All target indicator changes need to be explained/justified. Note that the target indicators by focus area refer to the entire activities of the RDPs, meaning all actions financed by MFF, EURI, national additional financing and national co-financing.

### Output indicators:

An amendment which changes the total public budget of a measure will in most cases lead to changes in planned outputs (financial increases usually lead to increases of planned outputs). Changes need to be done for common and program specific output indicators. Note that the output indicators by measure and by focus area refer to the entire activities of the RDPs, meaning all actions financed by MFF, EURI, national additional financing and national co-financing. Because EURI funds have to be programmed and monitored separately, the indicator plan tables have been adapted to include for each planned output a column “out of which financed by EURI” (EURI article 59(4)(ea) must be selected beforehand in chapter 10.0):

#### Planned output indicator(s) 2014-2022

MEASURE NAME	INDICATOR NAME
<b>M01 - Knowledge transfer and information actions (art 14)</b>	Training/skills acquisition (1.1) - Nbr of participants in tra
<b>M01 - Knowledge transfer and information actions (art 14)</b>	Training/skills acquisition (1.1) - Total public for training/
<b>M01 - Knowledge transfer and information actions (art 14)</b>	Total public expenditure € (trainings, farm exchanges, d (1.1 to 1.3)
<b>M04 - Investments in physical assets (art 17)</b>	Nr of holdings supported for investment in agricultural h
<b>M04 - Investments in physical assets (art 17)</b>	Total public expenditure for investments in infrastructure
<b>M04 - Investments in physical assets (art 17)</b>	Total investment € (public + private)
<b>M04 - Investments in physical assets (art 17)</b>	Total public expenditure € (4.1)
<b>M04 - Investments in physical assets (art 17)</b>	Total public expenditure €

For every measure the Member State allocated EURI funds in the financing plan, the outputs planned to be realised by the EURI need to be manually added to the globally planned output values. In addition, the planned EURI outputs have to be manually encoded in the separate column “out of which financed by EURI”.

### Consistency check between the financing and indicator plan

The indicator planning should match the financial planning in the RDPs. Member States should ensure such consistency. This has to be done manually.
