

## EU Login - What second factor can I configure with my account?

Refer [here](#) for more information about which Two-Factor Authentication methods can be used.

To ensure **continued access to EU Login** and its associated applications such as SFC2021, SFC2014 and SFC2007, users are encouraged to switch to one of the following secure authentication methods, depending on their preferences and specific requirements:

- [EU Login mobile app](#) (**recommended**). A simple and secure option that offers biometric protection and offline QR code authentication
- [Security keys](#). Removable physical keys like Yubikey USB and NFC
- [Trusted Platform Module \(TPM\)](#). A Computer chip available on many laptops and desktop computers for seamless authentication.
