EU Login - Sign in with an EU Login account using a Trusted Platform or Security Key

In order to increase security for access to all SFC applications (and many other Commission sites), the way in which users can login has been modified.

You can find more information about the different types of authentication by clicking here

Security Keys (SK)

A security key is a small physical device that looks like a USB thumb drive, and works in addition to your password.

Trusted Platforms (TP)

You can use Windows Sign-in options in order to verify your access to SFC.

1. To do so, you will first need to set up one of the 'Windows Hello' options, by going to your **Windows** settings -> Sign-in Options and set up one of the below methods:
