

OP - S3 Financing plan - Table 18a - Co-financing rate - Why do I get error 2.67 when requesting 100% co-financing rate for my FAST CARE priority axis?

According to CPR Regulation 2014-2020 art. 120(9): *A separate priority axis promoting the socioeconomic integration of third country nationals with a co-financing rate of up to 100 % may be established within an operational programme. Such a priority axis may be entirely dedicated to operations addressing migratory challenges as a result of the military aggression by the Russian Federation, including the dedicated priority axis referred to in the third subparagraph of Article 98(4).*

If the entire priority axis promotes the socio-economic integration of third country nationals, the co-financing rate can reach up to 100 % but make sure you tick the following box (third country nationals, also known as **FAST CARE**) when creating the priority axis in section 2:

- The entire priority axis is dedicated to fostering crisis repair under REACT-EU
- The entire priority axis will address migratory challenges resulting from the Russian military aggression, including in accordance with Article 98(4) of Reg
- The entire priority axis will use REACT-EU resources to address migratory challenges resulting from the Russian military aggression in accordance with
- The entire priority axis promotes the socio-economic integration of third country nationals*

If you tick the wrong box, you will get **error 2.67** because the co-financing rate for your priority axis cannot exceed the predefined limit in Table 18a of the Financing Plan:
