

General - Is it possible to import data from and export to Excel ?

- **Import from Excel** is only available for selected and very few tables. Wherever the functionality is active, it will be indicated in the Quick Guides available in the [Support Material](#) section of our Portal.
- **Export to Excel** (Excel and CSV formats) is available on all Tables: 1. Right click on the Table / 2. Export / 3. CSV or Excel Export

3. FINANCING PLAN

TA36(4)	VI	ERDF	More developed	Public			3,138,664.00	31,384,827.00	31,384,827.00	
Total		ERDF	More developed				89,676,118.00	896,709,353.00	896,709,353.00	
Grand total							89,676,118.00	896,709,353.00	896,709,353.00	

Be aware that the export function to Excel is a built-in feature, part of the AgGrid table component, and doesn't always work correctly. Often it does not copy all the columns.

- **Copy-paste** data from/to Excel works in all Tables.
