

NP - How to create a Minor Programme Version change?

When the MS wants to create a new version of the programme containing modifications which do not require a new Commission Decision, the option '**Major amendment**' under '**General > Version Information**' should be unticked (this option is ticked by default after creating a new programme version).

The screenshot shows a web form titled 'Edit Details' for a programme version change. The form contains the following fields and options:

- CCI: 2014ES16RFOP020
- Title*: Navarra FEDER 2014-20 PO
- First year*: 2014
- Last year*: 2022 (dropdown menu)
- Making use of Art. 96(8) CPR: ☐
- Major amendment (requiring EC approval - cf. Art. 96 CPR): ☒ (This option is highlighted with a red box in the original image.)
- Approved by monitoring committee: ☒
- Justification for amendment: (Empty text area)
- MS amending decision number: (Empty text field)
- MS amending decision date: (Empty date field with a calendar icon)
- MS amending decision entry into force date: (Empty date field with a calendar icon)
- Comments: (Empty text area)

At the bottom of the form, there is a remark: "Remark: If your proposed amendment contains also elements not covered by Commission decision (cf. Article 96 CPR), please make sure the information on the MS amending decision (i.e. MS amending decision number, MS amending decision date and MS amending decision entry into force date) is also filled in."

At the bottom right of the form, there are two buttons: "Update" (with a green checkmark icon) and "Cancel" (with a red X icon).

When the Major Amendment option is unticked the MS related fields **Justification for amendment**, **MS amending decision number**, **MS amending decision date** and **MS amending decision entry into force date** need to be filled. This is only possible in versions greater than 1.

Edit Details

CCI

2014ES16RFOP020

Title*

Navarra FEDER 2014-20 PO

First year*

2014

Last year*

2022

Making use of Art. 96(8) CPR

☐

Major amendment (requiring EC approval - cf. Art. 96 CPR)

☐

Approved by monitoring committee

☒

Justification for amendment

MS amending decision number

MS amending decision date

MS amending decision entry into force date

Comments

Remark: If your proposed amendment contains also elements not covered by Commission decision (cf. Article 96 CPR), please make sure the information on the MS amending decision (i.e. MS amending decision number, MS amending decision date and MS amending decision entry into force date) is also filled in.

Update

Cancel

This kind of version will be set to **'ADOPTED BY MS'** when sent to the Commission and when only non-decisional parts of the Operational Programme have been modified.

Note that when Major amendment is left ticked, a Justification is required and the version will need a new Commission Decision, even when only non-decisional parts have been modified.
