TOD IJG - Table 12 - Data to enter

Table 12 should only be completed when the FI codes 2-5 are used in Table 2 in the column ‘form of support’. This is checked by VR005 and VR006.

If this is the case but the Member State have nothing yet to declare then they should complete the Table 12 record with 0 for Loans in "Eligible expenditure by product" and in "Amount of private and public resources ...", but in the "Management cost and fees ..." fields leave it empty.
