	ERDF	Less developed	RSO1.1. Enhancing research and innovation	
	ERDF	Less developed	RSO1.1. Enhancing research and innovation	

As a workaround, please follow these steps:

- 1) Edit the Summary table, select 'Yes' for 'SCO non applicable' for the row you need to correct. This will erase all values for the row, so you might better write the values down for the 'Estimated proportion...' and the 'Code' for the operation to put them back later.
- 2) Save the change
- 3) Edit the table again and switch the SCO option back to 'No'
- 4) Insert the values previously removed for the 'Estimates proportion...' and the 'Code' for the operation

5) Save the change
