APR - Section 2.2.2 - How to declare Fruit & Vegetables and other Sectoral interventions, and how many times?

- In section 2.2.2 all sectors where Output Indicator is **O.35** must be declared with a PuaGroupCode = SectorName and intervention code empty as listed below:

```
<realisedOutputSectoral>
        <identifier>
                <budgetCode>080202010000350000001</budgetCode>
                <puaCode>ABCNAME</puaCode>
                <puaGroupCode>FV</puaGroupCode>
                <interventionCode> </interventionCode>
                <outputIndicatorCode>O.35</outputIndicatorCode>
                <um>op</um>
        </identifier>
        <excessJustification>NA</excessJustification>
        <output>0</output>
        <realisedExpenditure>93845.48</realisedExpenditure>
        <penalties>0</penalties>
        <limitationOnProportion>0</limitationOnProportion>
        <advancesInPreviousFinancialYear>0</advancesInPreviousFinancialYear>
        <advancesInFinancialYear>0</advancesInFinancialYear>
</realisedOutputSectoral>
```

- In section 2.2.2 the output indicator **O.35** must be declared once for each sector:

```
<realisedOutputSectoral>
        <identifier>
```

<budgetCode>08020201000035000001</budgetCode>
<puaCode>ABCNAME</puaCode>
<puaGroupCode>FV</puaGroupCode>
<interventionCode> </interventionCode>
<outputIndicatorCode>O.35</outputIndicatorCode>
<um>op</um>
</identifier>
.....
<realisedOutputSectoral>
<identifier>
<budgetCode>08020201000035000001</budgetCode>
<puaCode>ABCNAME</puaCode>
<puaGroupCode>OTHER-MILK</puaGroupCode>
<interventionCode> </interventionCode>
<outputIndicatorCode>O.35</outputIndicatorCode>
<um>op</um>
</identifier>
