Subject: SFC2007 Release 1.2

Dear members of the SFC2007 Project interest group,

It is with great pleasure that, as communicated in the Release Planning note, we can announce the release of the updated version of the SFC2007 web-application now also containing the functionalities needed for the preparation of the Operational Programmes.

The application is accessible for registered users only at the following web-address:

<https://webgate.ec.europa.eu/sfc2007/frontoffice>

In order to obtain access please consult the procedures listed in the information letter and in the documents located in Circa at:

http://forum.europa.eu.int/Members/irc/regio/sfc2007/library?l=/control_security&vm=detailed&sb=Title

We stress the fact that all requests for access must pass through the MS Liaison, and remind you of the importance of designating this authority as soon as possible. However, as mentioned in the document "*Access Control Management*" a transitory procedure has been put in place.

An update of the e-learning course will be available by mid October completing the course with detailed explanations about the preparation of the Operational Programmes.

We hope that the SFC2007 web-application meets your expectations and remain at your disposal at sfc2007-info@ec.europa.eu for any questions or comments that you may have.

The SFC2007 team
