CHANGES

- **'Member State' is mandatory in Standalone Documents (for Desk Officers only)**

When Desk Officers want to upload a Standalone document (Annual Examination, Audit Report, Monitoring Committee, Evaluation etc.) they'll be forced to select the Member State the document refers to. Select "All Country" if the notification should be sent to all Countries.

- **New format of the Annual Control Report (ACR) from 2011 onwards:**

The modifications in the ACR from 2011 onwards allow the Member State:

- To present the table for 'Declared Expenditure and Sample Audits' as revised in the 'Guidance on Treatment of Errors' draft version of 13/07/2011. The columns 'other expenditure audited from complementary sample' and 'other expenditure audited from random sample' have been replaced by (6) '% projected error rate' and (7) 'other expenditure audited'.
- To encode values for all columns on the Total line, in the case of one sample covering different OP's under a common system.
- To split the reporting over the region types covered by the Programme for EFF.
