12.03.2025 – SFC2021 - New release 3.47.0

Changes

Payment Application

PAP (18812) – PAP created on 29/02 belongs to the second submission period (29 February - 31 May).

Interventions/Beneficiaries (EAGF/EAFRD)

AGRI DIB (18808) - Allow to also group the XML error messages by Severity

Defects Fixed

Programme IJG

PRG IJG (18734) - Report - The title of the embedded TJTP was missing the tjtp version (it displays null). This is fixed.

PRG IJG (18759) - Create - On select a multifund cci, an error was displayed and funds could not be selected. This is fixed.

Programme IJG, ETC, EMFAF

PRG IJGETCEMFAF (18760) - Dimension tables - a validation in field 'Amount' has been added so it allows only values > 0.

TJTP

TJTP (18689) – (Webservices only) Version info - Validation on required field languageId was missing.

Commission Decision

COMDEC (18720) - Version info - Date format was not correct: dates were displayed as MM/dd/yyyy. This is now fixed to DD/mm/yyyy.

Transmission of Data

TOD (18402) - Table 6 - On save, achievement values for EECO01 should be automatically calculated. This is fixed.

Payment Application

PAP (18865) – (Webservices only) add nationalReference property to the search webservice.

Accounts

ACC (18517) - Concurrent edit actions should be allowed, and a specific error displayed when trying to execute other actions concurrently. This is fixed.

ACC (18732) - Version info - Date format was not correct: dates were displayed as MM/dd/yyyy. This is now fixed to DD/mm/yyyy.

National Audit Report

NAR (18731) - Version info - Date format was not correct: dates were displayed as MM/dd/yyyy. This is now fixed to DD/mm/yyyy.

Interreg Common Sample

ICS (18844) - When creating the first version the source language is always set to EN. This is fixed.

Survey

MDS (18733) - Version info - Date format was not correct: dates were displayed as MM/dd/yyyy. This is now fixed to DD/mm/yyyy.

General

SFC GEN (18639) - Title field and all single-line fields should not allow new lines. This is fixed.
