Changes

Programme

PRG (14434) – (EC users only) Add optional integral document type PRG.LAA on Accept MS Decision action.

Programme EMFAF

PRG EMFAF (14028) - Appendix 4: Structural Support - Added validation on field Description, which is required.

PRG EMFAF (14029) - Appendix 4: Compensation - Added validation on field Description, which is required.

PRG EMFAF (14031) - Appendix 4: Other Investments - Added validation on field Description, which is required.

Transmission of Data

TOD (13980) - MD SO4.13 in table 2 uses only intervention field 164 and all other dimensions should be disabled.

Payment Application

PAP (13966) - The status should go back from “Ready to send” to “Validated” when the Back Office system calculation upon “Send” changes the requested amounts.

Defects Fixed

Programme EMFAF

PRG EMFAF (14073) - Withdraw – It was not possible to withdraw a version in status Validated. This is fixed.

Transmission of Data

TOD (14396) - On edit records for specific objective ESO4.13, fields 2 to 8 should be disabled. This is fixed.
