Changes

Accounts

ACC IJG ETC EMFAF (18397) - Require for the Accounts Declarations both a signature from the Managing Authority and from the Body carrying out the accounting function when DeclarationsRepresentative1 is different from DeclarationsRepresentative2.

Defects Fixed

Transmission of Data

TOD (18482) - Table 2 - On save an already existing combination, a 500 error is displayed instead of a message explaining. This is fixed.

TOD (18425) - Tables - 500 / SFC_GEN_003 error displayed when different users save at the same time. This is fixed.

Enabling Conditions Actual Status

EC AS (18400) – The module was not loading. This is fixed.

Annual Performance Report

AGRI APR (18248) - NET expenditure from ACA was not copied into APR, Validation rules were passing without problems even if NET expenditure from ACA is NULL. This is fixed.

Declaration of Expenditure (EAFRD)

AGRI DOE EAFRD (18457) - data of the declaration were not displayed anymore in the snapshot document generated during PSE action. This is fixed.

Declaration of Expenditure (IPARD)

AGRI DoE IPARD (18486) - values of column 5 were not calculated if at least one of the values of columns 2;3;4' was null. This is fixed.

Certification Body Report & Audit Opinion (EAFRD/EAGF)

AGRI CBRN (18301) - The findings with the level “potential serious deficiencies” and “deficiencies that could become potentially serious due to recurrence” included in chapter 1.8 of the CB report were not collected in chapter 1.10 of the CB report, chapter that should contain all findings in AO2. This is fixed.

AGRI CBRN (18423) - message in 1.8.3 that data are deleted in 1.8.5 and viceversa.

AGRI CBRN (18441) - Hide the "Quantification of possible financial impact" field from the UI, preview and full report. Applies to sections 1.8.4, 1.8.9, 2.8.4 and 2.8.8.
