AGRI.R.4/agri.r.4.002(2023)9426843

INFORMATION NOTE TO THE MEMBER STATES

Subject: Budget code structure for agricultural expenditure under the CAP Strategic Plan in SFC2021

This document provides a proposed structure of codes ensuring the necessary breakdown of expenditure declared under the CAP Strategic Plan (CSP).

Taking into account the two-years transitional period for the CAP, only the period as of 2023 is concerned. The nomenclature needed to record EAGF operations outside the CSP as well as the nomenclature for EAGF assigned revenue, are not described in this note. The codes for Rural Development programmes 2014-2022 are also not part of this note.

The Common Agricultural Policy (CAP) expenditure is booked under Title 08 of the EU budget “Agricultural and Maritime Policy”¹. The Funds financing the CAP are specified at the Chapter level:

08.02 European Agricultural Guarantee Fund (EAGF)

08.03 European Agricultural Fund for Rural Development (EAFRD).

Under EAGF, separate budget articles will exist for types of interventions in certain sectors and direct payments under the CSP:

08.02.02 EAGF – Sectoral types of interventions under the CSPs

08.02.04 EAGF – Direct payments types of interventions under the CSPs

Contrary to EAGF, EAFRD support under the CSP is covered under one Item (under shared management):

08.03.01.01 EAFRD - Rural Development types of interventions under the CSP.

¹ Budget online: <https://eur-lex.europa.eu/budget/www/index-en.htm>

1. EAGF SUPPORT UNDER THE CAP STRATEGIC PLANS

1.1. DIRECT PAYMENTS UNDER THE CSP

1.1.1. Budget nomenclature

For the direct payments under the CSP (first payments as of financial year 2024), the budget article defined in the budget nomenclature is '08 02 04'.

There are six budget items which identify the type of intervention:

Code	Type of Intervention	Legal reference ²
01	The basic income support for sustainability	Art.16(2)(a)
02	The complementary redistributive income support for sustainability	Art.16(2)(b)
03	The complementary income support for young farmers	Art.16(2)(c)
04	The schemes for the climate, the environment and animal welfare	Art.16(2)(d)
05	The coupled income support	Art.16(3)(a)
06	The crop-specific payment for cotton	Art.16(3)(b)

The additional codes/digits will be used for further identifying the expenditure.

1.1.2. Budget code structure

The budget codes will have the structure '08 FF PP TT 00 00 NNIII UUUU RRR YY D'

The first six digits are constant '08 02 04' and enshrined in the EU budget. The Chapter level defines the Fund (FF) i.e. EAGF, while the Article level (PP) specifies that it is a direct payment under the CAP Plan.

The following two digits, the Item level 'TT' indicate the type of intervention, as indicated in the EU budget. Please note that the type of intervention 'TT' for direct payments is placed at different digit levels as for sectoral interventions and for rural development.

² In this column, all articles refer to the Regulation (EU) 2021/2115 of the European Parliament and of the Council of 2 December 2021 establishing rules on support for strategic plans to be drawn up by Member States under the common agricultural policy (CAP Strategic Plans) and financed by the European Agricultural Guarantee Fund (EAGF) and by the European Agricultural Fund for Rural Development (EAFRD) and repealing Regulations (EU) No 1305/2013 and (EU) No 1307/2013 (OJ L 435 of 6.12.2021). This Regulation will be hereby mentioned as the "CSP Regulation".

The digits “00” are stable and inserted as an alignment to the budget code structure. The following 2 digits “00” are stable and inserted as an alignment to the budget code structure.

The next digits ‘NNIII’ indicate the output indicator (NN) and the intervention (III). The codes for output indicators reflect the numbering of the output indicators provided in Annex I of the CSP Regulation³. The interventions are defined by the Member State. At this stage, we foresee 3 digits for interventions i.e. max 999 interventions per type of intervention. All direct payments interventions are IACS interventions.

‘UUUU’ indicate unit amount. Member States can decide how many amounts they want to plan. At this stage, we foresee 4 digits for unit amounts i.e. max 9999 unit amounts per intervention.

The codes for interventions and unit amounts are sequential numbers allocated by the SFC2021 system at the moment of submission of the CAP Plan by a logic built-in the system.

The digits ‘RRR’ indicate the possible reduction of a payment for the specific tranches to be defined by the Member States. This capping applies only to Basic Income Support type of intervention. The codes for the tranches of reduction of BISS are sequential numbers (001, 002, 003, ...) allocated by the SFC2021 system at the moment of submission of the Plan by a logic built-in the system. The code for the tranche with zero reduction is 000 and the code for the tranche with 100% reduction (capping) is 100.

Only for financial years where no financial discipline applies, it is possible to use a simplified ‘RRR’ codification. In this case, just two codes need to be provided:

- 000 for the tranche with zero reduction
- 999 for the tranche with reduction

In the case this simplified option is used by a Member State, the Member State should still be able to provide upon request from the Commission Services the detailed information for the tranches of reduction of BISS.

Please note that if a MS chooses the simplified option, in the declaration of expenditure it will not be possible to declare both under code 999 and under the codes related to the different tranches (001, 002, 003, ...), in order to avoid double counting.

As mentioned above, this simplified option may only be used for financial years where no financial discipline applies (preliminary condition)⁴.

Under both options and as regards the monthly declarations of expenditure, it is also important to clarify that MS should declare the net amounts (amount minus reduction) in the respective sub-items.

³ Regulation (EU) 2021/2115 (CSP Regulation) Annex I - Impact, Result, Output and Context indicators pursuant to Article 7.

⁴ Please note that the application of financial discipline can be decided very late, and even after the start of the financial year (e.g. the Decision to apply a specific financial discipline rate for financial year n is taken just prior to 1st December n-1), which means that until then Member States should be prepared to declare the detailed information by tranches.

‘YY’ indicates the calendar year.

Code	Calendar Year
23	2023
24	2024
25	2025
26	2026
27	2027

‘D’ indicates whether financial discipline is applicable or not. 0 means without the financial discipline and 1 is with the financial discipline (the threshold is 2000€).

Example: Direct payments: The basic income support for sustainability

‘08 02 04 TT 00 00 NNIII UUUU RRR YY D’

08 02 04 01 00 00 04001 0001 003 23 0 means:

- 08: Agriculture and Maritime Policy
- 02: EAGF
- 04: Direct payments types of interventions under the CAP Strategic Plans
- 01: Type of intervention: The basic income support for sustainability
- 00: Alignment in budget code structure
- 00: Alignment in budget code structure
- 04: Output indicator O.4 (O.4: Number of ha for basic income support for sustainability).
- 001: Intervention 1. (Intervention 1 in the type of intervention “the basic income support for sustainability”)
- 0001: Unit amount planned in CAP Strategic Plan
- 003: Reduction of payment
- 23: Calendar year 2023
- 0: Without financial discipline

1.2. TYPES OF INTERVENTIONS IN CERTAIN SECTORS UNDER THE CSP

1.2.1. Budget nomenclature

For the types of interventions in certain sectors under the CAP Strategic Plans (first payments as of 2023 at the earliest), the budget article defined in the EU budget is ‘08 02 02’. The Chapter level defines the Fund i.e. EAGF, while the Article level specifies that

they are interventions for certain sectors under the CSP. The budget item indicates the sector.

Code	Sector	Legal reference⁵
01	Fruit and vegetables sector	Art. 42(a)
02	Apiculture products sector	Art. 42(b)
03	Wine sector	Art. 42(c)
04	Hops sector	Art. 42(d)
05	Olive oil and table olives sector	Art. 42(e)
06	“Other sectors” set out in Article 1(2), points (a) to (h), (k), (m), (o) to (t) and (w), of Regulation (EU) No 1308/2013 and sectors covering products listed in Annex VI to Regulation (EU) 2021/2115 (CSP Regulation) ⁶ .	Art. 42(f)

The additional codes/digits will be used for further identifying the expenditure.

1.2.2. Budget code structure

The budget codes for the CAP SP sectoral types of interventions will have the following structure:

- ‘08 FF PP SS 00 TT NNIII UUUU 000 YY A’ for wine and for apiculture sectors; for fruit and vegetables sectors and for hops, olive oil and table olives sectors
- ‘08 FF PP SS GG TT NNIII UUUU 000 YY A’ for “other sectors” (as defined in CSP Art.42(f)).

The first six digits are constant ‘08 FF PP=08 02 02’. They correspond to: 08 Agriculture and Maritime Policy; 02 EAGF; 02 Types of interventions in certain sectors under the CSP.

The item level ‘SS’ indicates the sector as defined in the previous section.

The digit codes ‘GG’ indicates the sector concerned under “other sectors” (called sub-sector in this note). This is necessary for “other sectors” as different sectors and products are concerned.

The SFC2021 system foresees two digits for GG in an ordered way (max. 99 possibilities). The first GG digits (1-24) in the codification correspond to the sectors defined in Article 1(2) of Regulation (EU) No 1308/2013 and the last GG digits (25-99) correspond to sectors covering products listed in Annex VI to this Regulation.

The item level ‘TT’ indicates the type of intervention. The digits ‘NN’ indicate the output indicator. The digits ‘III’ indicate the intervention.

⁵ Legal reference in Regulation (EU) 2021/2115 (CSP Regulation).

⁶

Concerning the wine and apiculture sectors under the CAP Strategic Plans, Annex B to this note presents the different types of intervention ‘TT’ that will be provided by the SFC2021 system. At this stage, we foresee 3 digits for interventions i.e. max 999 interventions per sector.

In the fruit and vegetables, hops, olive oil & table olives and “other sectors” (points (a), (d), (e) and (f) of Article 42 of the CSP Regulation), the interventions are implemented through operational programmes via Producer Organisations. The planning, reporting and performance clearance for these interventions shall be made at sectoral level. Therefore, for these sectors, the types of interventions (TT) and the interventions (III) will be made at the level of the sector, therefore they will be encoded as TT=00 and III=000 at the moment of the submission of the CSP by the Member States.

The digits ‘NN’ indicate the output indicator. The codes for output indicators reflect the numbering of the output indicators provided for in Annex I of the CSP Regulation⁷. The codes for interventions are sequential numbers allocated by the SFC2021 system at the moment of submission of the plan by a logic built-in the system.

‘UUUU’ indicates the unit amount. Member States can decide how many amounts they want to plan.

Concerning wine and apiculture sectors, the system foresees 4 digits for unit amounts i.e. max 9999 unit amounts per intervention, as appropriate. The codes for unit amounts are sequential numbers allocated by the SFC2021 system at the moment of submission of the Plan by a logic built-in the system.

Concerning fruit and vegetables, hops, olive oil & table olives and “other sectors”, please note that the information for the unit amounts relates to the sectors (to the sub-sector for “other sectors”) i.e. the system will generate 000 for the interventions and type of interventions. Member States need to provide one planned unit amount, the total Union expenditure in EUR for the fruit and vegetables, hops, olive oil & table olives and “other sectors” (this latter at the level of each subsector ‘GG’).

The digits “000” are stable and inserted as an alignment to the overall budget code structure .

‘YY’ indicates the calendar year and it is used only for the fruit and vegetables sector. For the remaining sectors, the calendar year information is not needed, therefore, YY will be set to zero by default.

Regulation (EU) 2021/2115 does not foresee a fixed financial ceiling per Member State for interventions in the fruit and vegetable sector. In order to allow the Commission to trace and monitor the expenditure (for the purpose of establishing the Union’s Budget) in this sector, it’s necessary to establish a link between the declared expenditure and the total amount of the operational funds approved for the calendar year in question for all operational programmes in this sector.

For the fruit and vegetables sector, YY will correspond to the calendar year as follows:

Code	Calendar Year
23	2023
24	2024

⁷ Regulation (EU) 2021/2115 (CSP Regulation) Annex I - Impact, Result, Output and Context indicators pursuant to Article 7.

25	2025
26	2026
27	2027

‘A’ indicates the type of payment: advance or payment/balance.

Code	Type of Payment
1	advance
2	payment/balance

Example 1: Wine and apiculture sectors:

‘08 02 02 SS 00 TT NNIII UUUU 000 YY A’

08 02 02 02 00 01 37001 0001 000 00 2 means:

- 08: Agriculture and Maritime Policy
- 02: EAGF
- 02: Types of interventions in certain sectors under the CSP
- 02: Sector: Apiculture
- 00: Alignment in budget code structure
- 01: Type of intervention 1 (in the apiculture products sector)
- 37: Output indicator O.37 (O.37: Number of actions or units for beekeeping preservation/improvement)
- 001: Intervention 1.
- 0001: Unit amount planned
- 000: Alignment in budget code structure
- 00: Calendar year (00 by default for these sectors)
- 2: Type of payment: payment/balance

Example 2: Fruit and vegetables sector:

‘08 02 02 SS 00 TT NNIII UUUU 000 YY A’

08 02 02 01 00 00 35000 0001 000 23 2 means:

- 08: Agriculture and Maritime Policy
- 02: EAGF
- 02: Types of interventions in certain sectors under the CSP
- 01: Sector: Fruit and vegetables
- 00: Alignment in budget code structure
- 00: Type of intervention (00 by default for these sectors)

- 35: Output indicator O.35 (O.35 Number of supported operational programmes)
- 000: Interventions (000 by default)
- 0001: Unit amount planned
- 000: Alignment in budget code structure
- 23: Calendar year 2023 (for the fruit and vegetables sector)
- 2: Type of payment: payment/balance

Example 3: Hops, olive oil and table olives sectors:

'08 02 02 SS 00 TT NNIII UUUU 000 YY A'

08 02 02 04 00 00 35000 0001 000 00 2 means:

- 08: Agriculture and Maritime Policy
- 02: EAGF
- 02: Types of interventions in certain sectors under the CSP
- 04: Sector: hops
- 00: Alignment in budget code structure
- 00: Type of intervention (00 by default for these sectors)
- 35: Output indicator O.35 (O.35 Number of supported operational programmes)
- 000: Interventions (00 by default for these sectors)
- 0001: Unit amount planned
- 000: Alignment in budget code structure
- 00: Calendar year (00 by default for these sectors).
- 2: Type of payment: payment/balance

Example 4: "Other sectors":

'08 02 02 SS GG TT NNIII UUUU 000 YY A'

08 02 02 06 01 00 35000 0001 000 00 2 means:

- 08: Agriculture and Maritime Policy
- 02: EAGF
- 02: Types of interventions in certain sectors under the CSP
- 06: Sector: "other sectors"
- 01: Sub-sector
- 00: Type of intervention (00 by default for these sectors)
- 35: Output indicator O.35 (O.35 Number of supported operational programmes)
- 000: Interventions (00 by default for these sectors)
- 0001: Unit amount planned

000: Alignment in budget code structure
00: Calendar year (00 by default for these sectors)
2: Type of payment: payment/balance

2. EAFRD SUPPORT UNDER THE CAP STRATEGIC PLANS

2.1. Budget nomenclature

For the EAFRD (programming period 2023-2027), there is one budget item defined in the budget nomenclature for interventions under CSP:

08 03 01 01 – Rural Development types of interventions under the CAP Strategic Plans.

Chapter level 08.03 identifies the Fund, i.e. EAFRD. The codes/digits following the budget code 08 03 01 01 can be used for identifying further the expenditure.

2.2. Budget code structure – budget item EAFRD

The budget codes will have the structure ‘08FFBBPP 00 TT NNIII UUUU CCC YY 0’. The first eight digits correspond to the budget nomenclature displayed above (08 03 01 01 - Rural Development types of interventions under the CSP).

The following digits ‘00’ are used as alignment in budget code structure. The following digits ‘TT’ indicate the type of intervention.

Code	Type of intervention	Legal reference ⁸
01	Environmental, climate-related and other management commitments	Art.69(a)
02	Natural or other area-specific constraints	Art.69(b)
03	Area-specific disadvantages resulting from certain mandatory requirements	Art.69(c)
04	Investments, including investments in irrigation	Art.69(d)
05	Setting-up of young farmers and new farmers and rural business start-up	Art.69(e)
06	Risk management tools	Art.69(f)
07	Cooperation	Art.69(g)
08	Knowledge exchange and dissemination of information	Art.69(h)
09	Technical Assistance ⁹	Art.125
10	Other ¹⁰	Art.155(2)

⁸ Legal reference in Regulation (EU) 2021/2115 (CSP Regulation).

⁹ Note: Technical assistance is not a type of intervention.

¹⁰ Needed in order to accommodate carry-over of certain types of expenditure foreseen under Article 155(2) of the SPR.

The next digits ‘NNIII’ indicate the output indicator (NN) and the intervention (III). The interventions are defined by each Member State. At this stage, we foresee 3 digits for interventions, i.e. max 999 interventions per type of intervention. The codes for output indicator reflect the numbering of the output indicators provided in Annex I of the CSP Regulation¹¹. The codes for interventions are sequential numbers allocated by the SFC2021 system at the moment of submission of the Plan by a logic built-in the system. The interventions can be IACS and non-IACS. MS will indicate explicitly in the description of the intervention in the CAP Plan, whether an intervention is IACS or non-IACS. The next digits ‘UUUU’ indicate the unit amount. Member States can decide how many unit amounts they want to plan. At this stage, we foresee 4 digits for unit amounts i.e., max 9999 unit amounts per intervention. The codes for unit amounts are sequential numbers allocated by the SFC2021 system at the moment of submission of the Plan by a logic built-in the system.

The next digits ‘CCC’ indicate the maximum contribution rate. At this stage, we foresee 3 digits for maximum contribution rates (i.e., max 999 possibilities).

Code	Legal ref¹²	Percentage	Maximum contribution rate
001	91(2)(a)	85%	Less developed regions
002	91(2)(b)	80%	The outermost regions and the smaller Aegean islands
003	91(2)(c)	60%	Transition regions
004	91(2)(d)	43%	Other regions
005	91(3)(a)	65%	Payments for natural or other area-specific constraints under Article 71;
006	91(3)(b)	80%	Payments under Article 70, for payments under Article 72, for support for non-productive investments referred to in Article 73, for support for the projects of the EIP operational groups under Article 77(1), point (a), and for LEADER under Article 77(1), point (b)
007	91(3)(c)	100%	Operations receiving funding from funds transferred to the EAFRD in accordance with Articles 17 and 103
008	155(2)	Same rate as other regions	Early Retirement

Please note that the budget code allows to determine the maximum possible contribution rate but not the actual rate applied by the Member State. As the Member State may opt for regional rates, it is possible that there will be more than one contribution rate per given budget code. In this case future declarations of expenditure will have to display as many lines for a given budget code, as the number of actual contribution rates set by the Member State in the CAP Plan.

¹¹ Regulation (EU) 2021/2115 (CSP Regulation) Annex I - Impact, Result, Output and Context indicators pursuant to Article 7.

¹² Legal reference in Regulation (EU) 2021/2115 (CSP Regulation).

The digits ‘YY’ indicates the year for IACS interventions. This will be zero by default for non-IACS interventions as there is no need to state the calendar year (YY=00 for non-IACS).

Code	Year
23	2023
24	2024
25	2025
26	2026
27	2027
28	2028
29	2029

Example 1: IACS measure: Natural and other area specific constraints:

'08 FF BB PP 00 TT NNIII UUUU CCC YY 0'

08 03 01 01 00 03 12001 0001 001 23 0 means:

- 08: Agriculture and Maritime Policy
- 03: EAFRD
- 01 01: Rural Development types of interventions under the CAP Strategic Plans
- 00: Alignment in budget code structure
- 03: Type of intervention: Natural and other area specific constraints
- 12: Output indicator O.12 (O.12 Number of ha receiving support for areas facing natural or specific constraints, including a breakdown per type of areas)
- 001: Intervention 1 (IACS)
- 0001: Unit amount planned
- 001: Contribution rate: 85% - Less developed regions
- 23: Calendar year: 2023
- 0: Alignment in budget code structure

Example 2: Non- IACS measure: Investments:

'08 FF BB PP 00 TT NNIII UUUU CCC YY 0'

08 03 01 01 00 05 20001 0001 001 00 0 means:

- 08: Agriculture and Maritime Policy
- 03: EAFRD
- 01 01: Rural Development types of interventions under the CAP Strategic Plans
- 00: Alignment in budget code structure
- 05: Type of intervention: Investments

20: Output indicator O.20 (O.20 Number of supported on-farm productive investment operations or units)

001: Intervention 1 (Non-IACS)

0001: Unit amount planned

001: Contribution rate: 85% - Less developed regions

00: Calendar year (YY=00 by default for non-IACS measures)

0: Alignment in budget code structure

Example 3: Technical assistance

'08 FF BB PP 00 TT NNIII UUUU CCC YY 0'

08 03 01 01 00 09 00000 0000 000 00 0 means:

08: Agriculture and Maritime Policy

03: EAFRD

01 01: Rural Development types of interventions under the CAP Strategic Plans

00: Alignment in budget code structure

09: Technical assistance

00: Output indicator (00 by default)

000: Intervention (000 by default)

0000: Unit amount (000 by default)

000: Contribution rate (000 by default)

00: Calendar year (YY=00 by default)

0: Alignment in budget code structure

Example 4: Other¹³

'08 FF BB PP 00 TT NNIII UUUU CCC YY 0'

08 03 01 01 00 10 00000 0000 008 00 0 means:

08: Agriculture and Maritime Policy

03: EAFRD

01 01: Rural Development types of interventions under the CAP Strategic Plans

00: Alignment in budget code structure

10: Other – Carry over for Early retirement

00: Output indicator (00 by default)

000: Intervention (000 by default)

0000: Unit amount (000 by default)

¹³ Carry over for Early retirement

- 008: Contribution rate: Early retirement (same as 'Other regions')
- 00: Calendar year (YY=00 by default)
- 0: Alignment in budget code structure

Annex A OVERVIEW TABLE

Type of expenditure	Budget nomenclature	Breakdown from the CAP plan	Breakdown needed in the declarations of expenditure	Example
CAP Plan - direct payments	08FFPPTT	00 00 NNIII UUUU RRR	YY D	08 02 04 01 00 00 04001 0001 003 23 0
CAP Plan - interventions for wine and apiculture	08FFPPSS	00 TT NNIII UUUU 000	YY A	08 02 02 02 00 01 37001 0001 000 00 2
CAP Plan – interventions for fruit and vegetables	08FFPPSS	00 TT NNIII UUUU 000	YY A	08 02 02 01 00 00 35000 0001 000 23 2
CAP Plan – interventions for hops, olive oil and table olives	08FFPPSS	00 TT NNIII UUUU 000	YY A	08 02 02 04 00 00 35000 0001 000 00 2
CAP Plan – interventions for “other sectors”	08FFPPSS	GG TT NNIII UUUU 000	YY A	08 02 02 06 01 00 35000 0001 000 00 2
CAP Plan - Rural Development IACS	08FFBBPP	00 TT NNIII UUUU CCC	YY 0	08 03 01 01 00 03 12001 0001 001 23 0

CAP Plan - Rural Development non-IACS	08FFBBPP	00 TT NNIII UUUU CCC	YY 0	08 03 01 01 00 05 20001 0001 001 00 0
CAP Plan - Rural Development – technical assistance	08FFBBPP	00 TT NNIII UUUU CCC	YY 0	08 03 01 01 00 09 00000 0000 000 00 0
CAP Plan - Rural Development - Other ¹⁴	08FFBBPP	00 TT NNIII UUUU CCC	YY 0	08 03 01 01 00 10 00000 0000 008 00 0

¹⁴ Carry over for Early retirement

F - Fund	I - Intervention
P - Determining expenditure inside CAP plan, for EAGF determining whether interventions for direct payments or certain sectors	U -Unit amount
B - Other numbering resulting from the EU budget	C - Co-financing rate
T -Type of intervention	Y - Calendar year
S - Sector	R – Reduction of a payment (Capping in Direct Payments) for BISS
G - Sub-sector (for “other sectors”)	D - Payments subject to/not subject to financial discipline
N - Output indicator	A - Type of payment

Annex B Types of interventions for wine and apiculture products sectors

For the types of interventions in wine and apiculture sectors under the CAP Strategic Plans, the following digits ‘TT’ indicate the type of intervention:

For apiculture:

Code	Type of intervention for apiculture	Legal reference¹⁵
01	Advisory services, technical assistance, training, information and exchange of best practices, including through networking, for beekeepers and beekeepers’ organisations	Art. 55.1(a)
02	Investments in tangible and intangible assets, as well as other actions	Art. 55.1(b)
03	Actions to support laboratories for the analysis of apiculture products, bee losses or productivity drops, and substances potentially toxic to bees	Art. 55.1(c)
04	Actions to preserve or increase the existing number of beehives in the Union, including bee breeding	Art. 55.1(d)
05	Cooperation with specialised bodies for the implementation of research programmes in the field of beekeeping and apiculture products	Art. 55.1(e)
06	Promotion, communication and marketing including market monitoring actions and activities aimed in particular at raising consumer awareness about the quality of apiculture products	Art. 55.1(f)
07	Actions to enhance product quality	Art. 55.1(g)

For wine:

Code	Type of intervention for wine	Legal reference¹⁶
01	Restructuring and conversion of vineyards;	Art. 58.1(a)

13	Investments in tangible and intangible assets aiming to enhance the sustainability of wine production	Art. 58.1(m)

Annex C

BUDGET CODES REPORTS IN SFC2021

Member States can download their reports on budget codes in SFC2021 linked to a specific Strategic CAP Plan through a functionality named “report wrapper”. This functionality existed already in SFC2014.

In order to download the reports on budget codes in SFC2021 through the “report wrapper”, please log in SFC2021: [SFC2021 \(europa.eu\)](https://sfc2021.europa.eu)

Once logged in, please click on “Utilities” on the left hand side menu available.

Then, “User preferences > Reports” and a screen “Scheduled reports” will appear.

In order to create a new budget codes report linked to a Strategic CAP Plan, click on “new report”.

The output format can be PDF or XLS (Excel) and real time or scheduled can be chosen (e.g. if a report is needed at the beginning of each month or at the beginning of each quarter).

The reports on budget codes in SFC2021 linked to a specific Strategic CAP Plan both for EAFRD and EAGF can then be downloaded in SFC2021 and they are also sent to the e-mail address of the person generating the report through SFC2021.

A document describing in more detail how to access and generate a report in SFC2021 is available on [the SFC Support Portal](#).
