06.01.2025 – SFC2021 - New release 3.39.0

New

EC Audit Report

New EC Audit Report document types for BAR (EC Users only).

Changes

Programme IJG

PRG IJG (17914) – Programme changes for RESTORE:

− New RESTORE flag on a new non-TA priority. Not a real dedicated priority type (For ESF+ it can be combined with dedicated priority types). Not for technical assistance priorities. Not to be displayed in the print.
− RESTORE priority can be for ERDF/CF (mono or multi-Fund) and for ESF+ (mono-Fund).
− New specific objective RSO2.10 for ERDF and CF.
− New specific objective has no thematic enabling conditions.
− RESTORE priorities can have up to 95% co-financing.
− Can use all intervention fields.

- Can use all indicators under PO's 1-4.
- Updated Validation Rules 146, 148-156, 159-164, 167-174 to exclude RESTORE.
- New Validation Rules 267–278.

Defects Fixed

Programme IJG

PRG IJG (17930) - Compare Report - A missing 'order by' was causing sections to be displayed as having changes when there were none This has been fixed.

TJTP

TJTP (17024) - Creation wizard/General Version info section - Required fields were not correctly marked. This has been fixed.

Mid-Term Review

MTR (17112) - Version info – When the title was long, it was not displayed complete. This has been fixed.

STEP CALLS

STEP CALLS (17103) - Version info - When title was long, it was not displayed complete. This has been fixed.

Transmission of Data

TOD (17921) - Import from excel - When uploading excel in old template format, the error message was not translated. This is fixed.

TOD (17228) - compare - Table 10 columns were not compared. This is fixed.

TOD IJG (17219) - Table 10 - When the result indicator was linked to a specific output indicator, fields related to the specific output indicator were not displayed. This is fixed.

Annual Performance Report

AGRI APR (17942) - bug in 2.2.3 data collected from 2.2.4 fixed.

AGRI APR (17907) - allow decimals in section 2.6.

Declaration of Expenditure (EAFRD)

AGRI DOE EAFRD (16905) - CCI was appearing twice in the select box for the creation of a DOE. This is fixed.

Annual Accounts (EAFRD)

AGRI ACA24 (18065) - In section FI Public Expenditures, values of column 4' were not retrieved from EAFRD DoE. This is fixed.
