Changes

Programme IJG

PRG IJG (24496) - Version info: allow editing the flag “Programme amendment following the mid-term review (Article 18(3) CPR)”.

CAP Strategic Plan

AGRI CSP (24302) - Change in SFC table 6.1 following the proposal on fertilisers - flexibility for direct payment allocations.

AGRI CSP (24260) - New ‘Fertilisers (article 78(b))’ type of intervention.

AGRI CSP (24301) - New ‘Fertilisers (article 78(b))’ type of intervention - impact on validation rules and Draft Annex Decision.

AGRI CSP (21866) - Table 5: add new column IACS/non IACS.

AGRI CSP (24776) - New output indicator O.27a “Number of small farms receiving support for business development” added to SFC2021 reference data, with related internationalisation entries and adaptation of budget code generation.

Application EGF

PRG EGF (24534) - In Section D Eligible beneficiaries, subsection titles should be displayed in regular font instead of capitals.

CBRN

AGRI CBRN (24440) - New section 1.9.3/2.9.3 “Initial Inventory of AI-enabled Systems in the Paying Agencies and AI Use Cases”.

AGRI CBRN (24611) - Field “Language” in screen Officials in charge to be marked as mandatory.

Annual Performance Report

AGRI APR (24670) - Field “Language” in screen Officials in charge to be marked as mandatory.

National Audit Report

NAR (23636) - New section added for assessment of the management and control system per key requirement and overall per programme. The current column “Overall assessment (category)” is renamed to “General assessment per audited entity”. Validation rule 007 is updated, new validation rules 018-021 are added, model changes are introduced, and the new section is added to print and table of contents.

Annual Control Report

ACR (23635) - New section “Annex 1bis” added for assessment of the management and control system per key requirement and overall per programme. The current column “Overall assessment (category)” is renamed to “General assessment per audited entity”. Validation rule 007 is updated, new validation rules 045-048 are added, model changes are introduced, and the new section is added to print and table of contents.

Defects Fixed

Programme IJG

PRG IJG (24290) - A 500 error appeared when trying to generate the translated comparison print. This is fixed.

PRG IJG (24719) - In tables 4 and 8, mandatory fields were not treated as mandatory. This is fixed.

Programme AIB

PRG AIB (24294) - In Table 6 Total financial plan, compare issue caused incorrect calculation. This is fixed.

CAP Strategic Plan

AGRI CSP (24587) - PRG_CSP_016_2160 should not check for Green Box for GRUB and PEST interventions. This is fixed.

AGRI CSP (24623) - Translation inconsistency in RD intervention section 9 corrected in the report. This is fixed.

AGRI CSP (24562) - Saving sectoral objectives on interventions failed with error 400. This is fixed.

AGRI CSP (24828) - Issue with submitting the programme with an intervention with Output Indicator O.27a fixed.

Social Climate Plan

SCP (24637) - Error validating a new object. This is fixed.

European Innovation Partnership

AGRI EIP (24581) - Validation rule 185 was providing an incorrect result. This is fixed.

Transmission of Data AIB

TOD AIB (24437) - It was not possible to edit the field “Data collection method” in tables 7 and 11. This is fixed.

Enabling Conditions

EC (24115) - In Actual status and Structured Art.15(4) search lists, the order by enabling condition was using the wrong logic. This is fixed.

Annual Performance Report

AGRI APR (24661) - It was not possible to upload XML file after NOA integration because existing CSP budget codes could not be validated and NOA budget codes showed upload errors. This is fixed.

AGRI APR (24514) - Check spaces in interventions for sections 2.3. This is fixed.

AGRI APR (19018) - Additional national financing now appears for RD interventions.

Payment Application

PAP (24509) - After creating a new version, the expenditure section was incorrectly marked as changed in compare mode. This is fixed.

PAP (24585) - SFC_PAP_024 error on send due to comparison issue. This is fixed.

General

GEN (24742) - Once filters were set in a search page, it was not possible to clear them using the Clear button. This is fixed.

GEN (24536) - In Officials in charge, email validation was triggered when there were leading or trailing spaces. This is fixed.
