PRGETC - A user guide will be available in the Support Materials section of this portal shortly.

TJTP

TJTP - A user guide will be available in the Support Materials section of this portal shortly.

Changes

Partnership Agreement

PRG EMFAF (2238) - Create validation rule 038 - validate that the Partnership Agreement exists and has been sent:

> *|038 |E |Validate for version 1 that the Partnership Agreement of the country of the programme has already been sent to the Commission. The Partnership Agreement has not yet been sent to the Commission. The programme can be submitted to the Commission only after the submission of the Partnership Agreement.*

Defects Fixed

Programme EMFAF

PRG EMFAF (2225) - In the Partnership Agreement Art36(4) or 36(5) must be chosen prior to creating a MARE programme. The system was not checking this. This has been fixed.

PRG EMFAF (2217) – The Programme was staying in status "Validated" if any modification done on Appendix 1 and/or 2. Even adding or removal of Appendix 1 & 2 should put the status on "Open". This has been fixed.

PRG EMFAF (2186) – When appendix 1 and 2 are created and filled system rolls back from "PREPARING FOR SEND TO EC " to "VALIDATED" after validate workflow action. This has been fixed.

PRG EMFAF (2185) - Report – An error was appearing when generating the report. This has been fixed.

General

GEN (1157) - Mandatory fields were accepting blank spaces. This has been fixed.
