### New Functionalities

#### *EGF Application*

The EGF Application is now available for encoding under the 'Programming' menu in SFC2021.

A user guide can be found under the 'Support Materials' menu of the portal.

#### *CAP Strategic Plan (EAGF/EAFRD)*

The CAP Strategic Plan is now available for encoding under the 'Programming' menu in SFC2021.

## Changes

### *Partnership Agreement*

PA (3226) – Validation Rule PA\_007 - The total amount transferred should be checked against the total financial allocation for that MS and Category of Region in the Financial Allocation directory instead of the value in 3B because 3B could be empty.

PA (3255) - VR PA\_007 was changed.

PA (3256) - VR PA\_070 was changed.

### *Programme IJG*

PRG IJG (2973) - Selecting a TJTP version from the drop down list will add it to the selected ones when the TJTP was not yet selected.

PRG IJG (2974) - When in the TJTP version list, there is a more recent version of an already selected TJTP, then selecting that more recent version will replace the old selection.

### *Programme EMFAF*

PRG EMFAF (2062) - Appendix 1 - Adding explanation from the CPR on Indicator, field 10.

PRG EMFAF (2061) - Appendix 2 - Explanation for field 10 and 11.

### *Programme ALL*

PRG ALL (2615) - Appendix 1 & 2 text fields resized and counter removed.

### *Territorial Just Transition Plan*

TJTP (3070) – A new rich text field has been added for Justification under Section 4.

## Defects Fixed

### *Partnership Agreement*

PA (1971) - The table titles and content were empty when navigating to the table popup section from other sections as an EC user

PA (3072) - validation rule 101 – A system error was occurring when not all amounts were filled-in, even if they were not required.

PA (2995) - validation rule 19 – A system error was occurring when the programme had table 11 empty.

PA (3190) - validation rules 102 – There was a problem with the formatting of the decimals.

PA (3191) - validation rules 103 – There was a problem with the formatting of the decimals.

PA (2207) - validation rules 19 - A system error was occurring when a programme for a cci in tables 9A/9B didn't exist yet.

PA (3227) – validation rule 061 – the rule was triggering when it shouldn't.

PA (3260) – There was an error when saving table 9A.

PA (3257) – A system error occurred during validation when Art36(4) or (5) was selected .

### ***Programme IJG***

PRG IJG (3071) - On create new version the content of section TJTP was not copied to the new version.

PRG IJG (3206) - Appendix2 Summary - Sometimes the save button was unresponsive.

PRG IJG (3115) - Section 2.1.1.1.3 Table4 – There were issues with the Category of Region requirements for CF and JTF.

PRG IJG (3071) - On create new version - The content of section TJTP was not copied to the new version.

PRG IJG (3090) - On Validate the spinner was not disappearin.

PRG IJG (3100) - Table 2 IJG – The checkbox was not updating dropdown values after clicking next to it.

### ***Programme ETC***

PRG ETC (3083) - In Priority(S2) Specific Objective table was not refreshed after adding.

PRG ETC (2663) - Priorities TOC order and table order should now be aligned.

PRG ETC (3068) - Strand B programme type NXTN should now have 4 funds (ERDF, IPA III, NDICI, OCTP).

PRG ETC (3106) - An incorrect error message was triggered when trying to create duplicated entry in table 1.

### ***Programme EMFAF***

PRG EMFAF (3210) - Table 3- when trying to add a new row the years were not reset in the form and the ones used in the previous row were displayed.

## *Territorial Just Transition Plan*

TJTP (2617) - On create new version the tab didn't display the reference.

TJTP (2626) - Notifications were not received when marking a TJTP as completed.

## *Programme AIB*

PRG AIB (3067) - The value for TA36(5) in ISF and BMVI was editable whereas it should now be automatically calculated like in AMIF.

PRG AIB (3225) - Appendix 1 - Amounts did not have number format.

PRG AIB (3107) - Report – Percentages were displayed as decimals in report.

PRG AIB (3231) - Accept thematic facility Reason should no longer be mandatory.

## *General*

GEN (2601) – Improvements/corrections to Rich Text formatting.

GEN (2211) – Checkboxes were editable and giving errors when saving. This is fixed.

GEN (2485) - Navigation in tables using the keyboard/arrow keys was not working correctly while editing. This is fixed.

GEN (3037) – It was possible to edit tables after closing edit mode. This is fixed.

GEN (3076) – Table of Content (TOC) was losing position when clicking on TOC item and when TOC was longer than the panel boundaries. This is fixed.

GEN CCI (3208) - On the CCI allocation page the scroll bar was not working.

GEN CCI (3200) - Text in the Titles were changing when trying to allocate the CCI.

GEN (2461) - Change language - The new language translations were not loaded when changing language.

GEN (1842) - Change profile - Sometimes the app wouldn't refresh after changing the profile.

GEN (3194) - Editable date fields were not validated.

GEN (1639, 1640, 1641) - Inline tables - Numeric fields: digit limit validation was missing, values were rounded and/or displayed as scientific notations.

GEN (3202) - Numeric fields - The Save button was enabled when required fields were empty.

GEN (2924) – Inline table edit was using different number formatting when displaying or editing values.

GEN (3061) – Table of Content (TOC) search was not correctly reset after clearing the search.

GEN (2316) - Edit button was not displayed just after creation of a new version of the programme.

GEN (3246) - Negative amounts are now allowed on numeric fields.

GEN (3247) - Sometimes navigation in tables using a keyboard was not working.
