New Functionalities

Changes

CAP Strategic Plan (EAGF/EAFRD)

CSP EAGF/EAFRD (2544) – in Section 5 WTO compliance (9), eco-scheme 31(7)(a) or 31(7)(b) will now also be taken into account.

CSP EAGF/EAFRD (2901) – Annex I ex-ante evaluation has been integrated as a structured section in the CSP.

CSP EAGF/EAFRD (3267) – After creating an intervention only the tocitems of this intervention will be expanded, the other tocitems will remain collapsed so the user immediately sees that a new intervention has been created and can then continue encoding through the subsection of this intervention.

CSP EAGF/EAFRD (3291) – In Section 5 Planned Unit Amounts table (12), a new column ‘2028’ has been added only for other sectors and the title of the Total column has been changed into ‘Total 2023-2027’.
