Changes:

National programme (AMIF/ISF)

- NP AMIFISF (417491) – A few changes added to the Table 3 “annual EU commitments” edit screen during accept:
 - Popup screen was enlarged and made it resizable.
 - Expected totals to annual EU commitments table were added in the Accept page. For AMIF there was a special calculation because of the split of the Technical Assistance:
 - Expected total for AMIF Asylum should be $SO1+SO4+SpecialCases+roundup(50\% \text{ of TA})$
 - Expected total for AMIF Integration should be $SO2 + SO3+rounddown(50\% \text{ of TA})$
 - Accept validation rules were adapted accordingly for AMIF Asylum and for Integration
 - Display of the annual commitment table is now working when the status was 'Decision OK'
 - Now EC users must encode the annual EU commitments when accepting decision
