PROGRAMME AMIF: .....	2
DESIGNATION OF AUTHORITIES: .....	2
IMPLEMENTATION REPORT IGJ: .....	2
PAYMENT FORECAST: .....	2

## New Functionalities:

### *No New Functionalities*

## Changes:

### *RDP Programmes:*

- RDP - Allow MS to fill expenses for planned allocation = 0

### *Operational Programme (EMFF):*

- OP EMFF - merge the cells from the first and last column from table "EMFF contribution and co-financing rate" in report and annex
  - In tables "8.2 EMFF contribution and co-financing rate for the union priorities, technical assistance and other support (€)" in the "Print all" report and in "EMFF contribution and co-financing rate" in "Annex" report (visible to the EC users for sent OPs) the cells from the first and last columns should be merged vertically when there is the same value in the first column.

## Defects fixed:

### *RDP Programmes:*

- RDP - Validation rule 9 was returning an error for Section 12, Measure 14 even if M14 has been deleted from the programme

### *Operational Programme (EMFF):*

- OP EMFF - unable to change cci for a first version now fixed

### ***Programme AMIF:***

- PRG AMIF / ISF - Create new programme - If the user did not have permission on the fund, he received the wrong message: "PRG version not found" instead of "You don't have the permission to perform this action".

### ***Designation of Authorities:***

- DOA - Concurrent update/delete led to an error

### ***Implementation Report IGJ:***

- IR IGJ - Create new major version - Implement the copy of data from previous major version when it exists
  - The annual achievement values for previous Reporting Years are copied from the Implementation Report of the previous Reporting Year.
  - Also the "Measurement unit of the indicator", the "Output Indicator used as basis for target setting" and the "Measurement unit for baseline and target" in Table 2C are copied from the Implementation Report of the previous Reporting Year.

### ***Payment Forecast:***

- Payment Forecast SFCF - total for detail not well ordered and sometimes gives error
- PF IGJ / ETC - Create new Payment forecast - A message "You don't have permission to perform this action" is shown to the user in some cases, having the correct permissions
- PF IGJ/ETC - Table 2 - It was not possible to remove a categorization row, not when it is the last row, but when it exists another for the same PA, Fund and Category of region
