New Functionalities:

N/A

Changes:

Quarterly declaration of expenditure (EAFRD)

- QDE - The possibility for the Member State to provide CATS Paying Agency Code was added in the Declaration of Expenditure.
- QDE - The Table of content title was adapted to 'Paying Agency and Bank Account'
- QDE - New validation rule "The 'Paying Agency' is mandatory (error).

Implementation Report

- IR - The option to upload document of Type "Other member state document" is no longer available for the funds: CF, ERDF, ENI, IPAE, ESF, YEI, EMFF
- IR IGJ - In Table 4A, Common Output Indicators CO20 to CO23 and Grand Total do not have gender breakdown

Defects fixed:

Major Project Notification

- MP NOT - Wrong total eligible cost calculation corrected.

Implementation Report (IGJ)

- IR IGJ - For a 2015 IR, the reporting year and the past years were not always displayed in the Indicator tables. Table 1 and 2C only show 2014. Tables 3A and 2A only show 2015.
- IR IGJ - Table 2B wasn't showing all years

- IR IGJ - Implementation Report IGJ and ETC Print show EN as language although it was generated in another language.
- IR IGJ - An error occurred when creating a new programme version, when in table 24 (ex-ante conditionalities) reference field value is longer than 500 characters

Accounts (AMF/ISF)

- ACC AMFISF - Accounts Print showed EN as language although it was generated in another language.

Generation of Reports

- Improvement on the Generation of Reports speed that were being executing slower and slower in Production.
