DEFECTS FIXED:	2
ANNUAL IMPLEMENTATION REPORT (EAFRD)	2
IMPLEMENTATION REPORT (IGJ/ETC/EMFF)	2
IMPLEMENTATION REPORT (ETC)	2

New Functionalities:

N/A

Changes:

Annual Implementation Report (EAFRD)

- AIR EAFRD - Snapshot section 1.b) Common and programme-specific indicators and quantified target values was implemented
- AIR EAFRD - User is now allowed to create specific output and target indicators directly in section G of the Annual Implementation Report.
- AIR EAFRD - Minor changes:
 - Creation form: first version now displays the same message as the one in general info
 - Positions of "National Reference" and "Monitoring date" were swapped.
 - In General info, "Commission Decision" was split into two fields: decision number and date.

Major Project Submission

- MP SUB - A new document type "Documentation from JASPERS (e.g. Action Completion Note)" is available
- MP SUB - A new validation rule 2.68 has been added
 - "Validate when K.1 is 'Yes' and version is 1.0 that a document of type 'Documentation from JASPERS (e.g. Action Completion Note)' is uploaded (error)."
- MP-SUB - In section K.1 the prompt has been changed to: "*K.1. Has Jaspers contributed to any part of the preparation of this project? If Yes, include a document of type "Documentation from JASPERS (e.g. Action Completion Note)" and use the text box in paragraph K.2. to describe the elements of the project where Jaspers had an input "*

Defects fixed:

Annual Implementation Report (EAFRD)

- AIR EAFRD - In case of the creation of a new minor version, specifics output and target (Table G) were not copied in the new version. This has now been fixed.
- AIR EAFRD - User is now allowed to create specific output and target indicators directly in section G of the Annual Implementation Report.

Implementation Report (IGJ/ETC/EMFF)

- IR – Error when sending an IR IGJ/ETC/EMFF version is now fixed.

Implementation Report (ETC)

- IR ETC - User no longer gets an Error Message on the screen for Table 4.
- IR ETC - When an Implementation Report is sent, the snapshot and acknowledgement report is now generated with the correct ETC template instead of the IGJ one.
