

New Release 21/06/2016 SFC2014 FrontOffice 2.6.3

NEW FUNCTIONALITIES:	1
PRINT IN WORD	1
CHANGES:	1
ANNUAL IMPLEMENTATION REPORT (EAFRD)	1
IMPLEMENTATION REPORT (IGJ/ETC/EMFF)	2
DEFECTS FIXED:	2
ANNUAL IMPLEMENTATION REPORT (EAFRD)	2
DECLARATION OF EXPENDITURE (EAFRD)	2
DESIGNATION OF AUTHORITIES	2
IMPLEMENTATION REPORT (IGJ/ETC/EMFF)	2
IMPLEMENTATION REPORT (IGJ)	2
IMPLEMENTATION REPORT (EMFF)	3
BI-ANNUAL INDICATOR DATA PROVISION (EAFRD)	3

New Functionalities:

Print in Word

- PRINT – Member State users now have the option to print the following object types in Word:
 1. PA
 2. Application EGF
 3. PRG IGJ, ETC, FEAD, EMFF, IPA, AMIF, ISF
 4. DOA
 5. MP Notification
 6. MP Submission
 7. IR IGJ, ETC, FEAD, EMFF, AMIF, ISF
 8. PF IGJ, ETC, EMFF, FEAD, EAFRD
 9. PAP IGJ, ETC, EMFF, FEAD
 10. ACC IGJ, ETC, EMFF, AMIF, ISF, FEAD
 11. ACR IGJ, ETC, EMFF, FEAD

Changes:

Annual Implementation Report (EAFRD)

- AIR EAFRD – Tables G1 and G2 in the Annual Implementation Report are now sorted without differences between the template and the snapshot generated.
- AIR EAFRD - Snapshot section 1.b) Common and programme-specific indicators and quantified target values was implemented
- AIR EAFRD – The following validation rules were added/
 - *In case the MS uses FI (art 59(4)(c) or art 59(4)(d)), validate that at least the "Report on the implementation of financial instruments" is annexed to the AIR (Error)*
 - *validate that at least one "Financial annex (system or other)" is annexed to the AIR (error)*
 - *validate that a "Citizen's summary" is annexed to the AIR (warning)*
 - *validate that all integral documents have at least one attachment with a length > 0 (error)*

- validate that at least one official in charge of the Member State exists (warning)
- validate that the "Monitoring committee approval date" is filled. (warning)
- validate that all mandatory sections (textual fields, tables...) are filled (see technical guidelines)

Implementation Report (IGJ/ETC/EMFF)

- IR - Compare mode for Implementation Report financial instruments is now active.

Defects fixed:

Annual Implementation Report (EAFRD)

- AIR EAFRD - The cumulative Declarations of expenditure is now correctly calculated in section 3b, taking all accepted Declarations of expenditure for this programme (before the end of the Annual Implementation Report implementation period).
- AIR EAFRD - Acknowledgement of receipt for the Implementation report was not generated correctly.
- AIR EAFRD - Monitoring table B1 is now always displayed in the snapshot.
- AIR EAFRD - Monitoring structure code is now set as cell-id and also as name for all textbox in tables from A to E.
- AIR EAFRD - New template available for the document type "Report on the implementation of financial instruments".
- AIR EAFRD - If an Annual Implementation Report was 'Ready to send', and the user did any update on section 11, an error was changing back the status of it to 'Open'. This has now been fixed.

Declaration of Expenditure (EAFRD)

- RDP DOE - Declaration of expenditure is now linked to the correct adopted programme version.
- RDP DOE - Only one declaration of expenditure can be now set as first for the same CCI.
- RDP DOE - Declaration of expenditure no longer includes budget code lines with co-financing **rate equal to zero**

Designation of Authorities

- DOA - Validation Rule 2.1.3 will only trigger when Designation end date is equal to the current date (as well as smaller).

Implementation Report (IGJ/ETC/EMFF)

- IR – The table of content item for Financial Instruments now includes the Priority Axis (IGJ/ETC) or Union Priority (EMFF) code before the name. E.G. PACODE – Name of Financial Instrument.
- IR - Financial Instruments long name are now entirely visible.

Implementation Report (IGJ)

- IR IGJ - PRINT: Missing years 2019-2023 for table 4 and total column are now included.

Implementation Report (EMFF)

- IR EMFF - Create new version no longer triggers an error message when Table 4 contains the Technical Assistance Union Priority.

Bi-annual indicator data provision (EAFRD)

- RDP BAIDP – It is now possible to enter the full BAIDP version in the search page
