RURAL DEVELOPMENT PROGRAMME (EAFRD) .....	1
EUROPEAN INNOVATION PARTNERSHIP (EAFRD) .....	2
IMPLEMENTATION REPORT (AMIF,ISF) .....	2
ACCOUNTS (EAFRD,EAGF) .....	2

## Changes:

### ***Rural development programme (EAFRD)***

- RDP EAFRD (12283) – Due to changes in the legal text, there are some additional changes for the transition period implemented in the Rural development programme:
  - Transition does not apply to the UK, so the system now prevents from seeing the two additional columns in the Financing Plan for 2021 and 2022.
  - For measure 17 (risk management) two additional lines were added at the bottom of the measure in the Financing plan.
- RDP EAFRD (12838, 12936) – There are several changes in the Rural development programme due to the inclusion of the European Union Recovery Instrument (EURI fund) on in the Rural development programme and the Declaration of expenditure. Please check the updated quick guides on the Portal to find all the changes.

### ***Implementation report (AMIF,ISF)***

- IR AMIF ISF (12741, 12743, 12744, 12745, 12746, 12747) – A new section (9) is now implemented to report on Covid related measures. The section is also implemented in the print version.

## Defects fixed:

### ***Rural development programme (EAFRD)***

- RDP EAFRD (12948) – The M21 expenditures were not displayed in the excel report. This has now been fixed.
- RDP EAFRD (12820) – The European Commission users were able to edit section 5.2 when they shouldn't. This permission has now been revoked.
- RDP EAFRD (12871) – There was an error when comparing the indicator plan for 2 programme versions. This has now been fixed.
- RDP EAFRD (12922) – The allocation name was displayed twice for 59(4)(ea) in chapter 10.3. This has now been fixed.
- RDP EAFRD (12924) – Allocations for 59(4)(ea) were removed from table 10.3 when a new article was selected in section 10.0.
- RDP EAFRD (12963) – The section 10.3 (FP by measure) was not correctly displayed in the PDF snapshot report. This has now been fixed.

### ***European innovation partnership (EAFRD)***

- EIP EAFRD (12957) – The users were not able to create an EIP project anymore. This has now been fixed.

### ***Implementation report (AMIF,ISF)***

- IR AMIF ISF (12949) - It has been observed that in the table in Section 9, the Year 2022 was repeated in 2 columns, instead of the Year 2023. This has now been fixed.
- IR AMIF ISF (12952) - There was no characters calculation or range defined to enter text in section 9. The Users were able to enter a text size as big as they wanted but that was triggering an error. Now the characters limitation is mentioned.

### ***Accounts (EAFRD,EAGF)***

- ACC EAFRD EAGF (12912) – The user couldn't generate the report when not all opinions (EAFRD/EAGF) were filled in. This has now been fixed.
