Operational programme (IGJ)

- OP IGJ (12981) - The snapshot document was displayed twice in the document section. The first one was in the correct place, as expected, but the second one appeared in the field, which is reserved for European Commission submitted annexes. This has now been fixed.

Operational programme (FEAD)

- OP FEAD (13074) - In the Financing Plan Table, the order of Years were not correct and it was not possible to sort, when the Years extended up to 2022. This has now been fixed.

Rural development programme (EAFRD)

- RDP EAFRD (13065) - The EURI co-financing rate was not displayed in edit mode in section 10.3 if the co-financing rate was previously filled in. This has now been fixed.

- RDP EAFRD (13069) - In the PDF report, in chapter 11.5, when transition applies, the column Target value was referring to 2023 instead of 2025 like it should. Now it correctly displays 2025.

- RDP EAFRD (13070) - In the PDF report, the box for some of the rich text, (depending on the content filled) was very narrow. This has now been fixed.

- RDP EAFRD (13093) - In section 10.3, the user was able to encode the Financial instrument if the "type of region/other allocation" was not selected beforehand when this shouldn't be possible. Now the system correctly prevents it from happening.

- IR AMIF ISF (12952) - In the section S9 - Covid19 Expenditure, the Text Editor box was giving an error when the user tried to save the data. This has now been fixed.
