Defects fixed:

Operational Programme (IGJ)

PRG IGJ (13457) - REACT-EU Table 20 contained wrong calculations of proportions. They should be calculated as follows:

- The Fund lines should be divided by the Fund's Total Union Support from table 18 without REACT-EU.
- The total line should be divided by the total Union Support for both Funds without REACT-EU.

Accounts (IGJ)

ACC IGJ (13430) - Appendixes 1-8 - There was an extra total (per category of region or reactEU) which should not be there for CF. This is fixed.

ACC AMF ISF (13452) - The resettlement is not saved for 2021.
