# Control Data and Control Statistics EAFRD/EAGF

## PURPOSE

This document describes the specifications of the use-cases related to the electronic submission in SFC2014 of **Control Data and Control Statistics (CDS)** for direct payments schemes (EAGF) and rural development measures (EAFRD) as referred to in **Article 9(1) of Regulation (EU) No 809/2014**.

### *Article 9*

#### **Notifications**

1. Each year, by 15 July, for all direct payment schemes, rural development measures and technical assistance and support schemes in the wine sector referred to in Articles 46 and 47 of Regulation (EU) No 1308/2013, Member States shall notify the Commission of the control data and control statistics covering the previous calendar year and, in particular, of the following:

- (a) data relating to individual beneficiaries in terms of aid applications and payment claims, areas and animals declared and/or claimed, results of administrative, on-the-spot checks and ex post checks;
- (b) where applicable, the results of the checks relating to cross-compliance including the relevant reductions and exclusions.

Such notification shall take place by electronic means using the technical specifications for the transfer of the control data and control statistics made available to them by the Commission.

This electronic submission of CDS documents was previously ensured through the IT application STATEL/eDAMIS. Starting from claim year 2017 (submission deadline = 15/07/2018) all the Paying Agencies will have to do this electronic submission through SFC2014.

Member States are required to send information relating to the applications and payment claims of beneficiaries and in particular the numbers of checks carried out and the results of these checks by 15 July each year. These CDS are used by the Directorate-General for Agriculture and Rural Development (DG AGRI) i.e. to monitor the management of the funds and in the context of the Director General's Declaration of Assurance and the Annual Activity Report.

## REGULATIONS

Article 9(1) of Regulation (EU) No 809/2014.

More detail regarding the regulation of CDS can be found in the '[About SFC2014](#)' section of this portal.

## ROLES

Roles involved in the CDS are:

<b>MS Coordination Body</b>	Create the CDS
-----------------------------	----------------

	Record the CDS Upload the CDS Consult the CDS Delete the CDS Validate the CDS <b>Send the CDS to an upper Node &amp; to the Commission</b> Create New Version of the CDS
<b>MS Paying Agency</b>	Create the CDS Record the CDS Upload the CDS Consult the CDS Delete the CDS Validate the CDS <b>Send the CDS to an upper Node (but not to the EC)</b> Create New Version of the CDS

## PRE-CONDITIONS

For CDS concerning **claim year 2017**, the information submitted by the Member State to the Commission through SFC2014 will consist in a set of documents (files) organised in sections. Some of these documents will be subject to a content validation by WinCheckCSV.

For **claim year 2017** (submission deadline = 15/07/2018), the Member States will not be able to submit any of this information through structured web-forms as it's usually the case in SFC2014.

This document doesn't cover the computer file structure of the CDS documents submitted by Member States. It doesn't cover either the content of the validation rules performed by WinCheckCSV on these files.

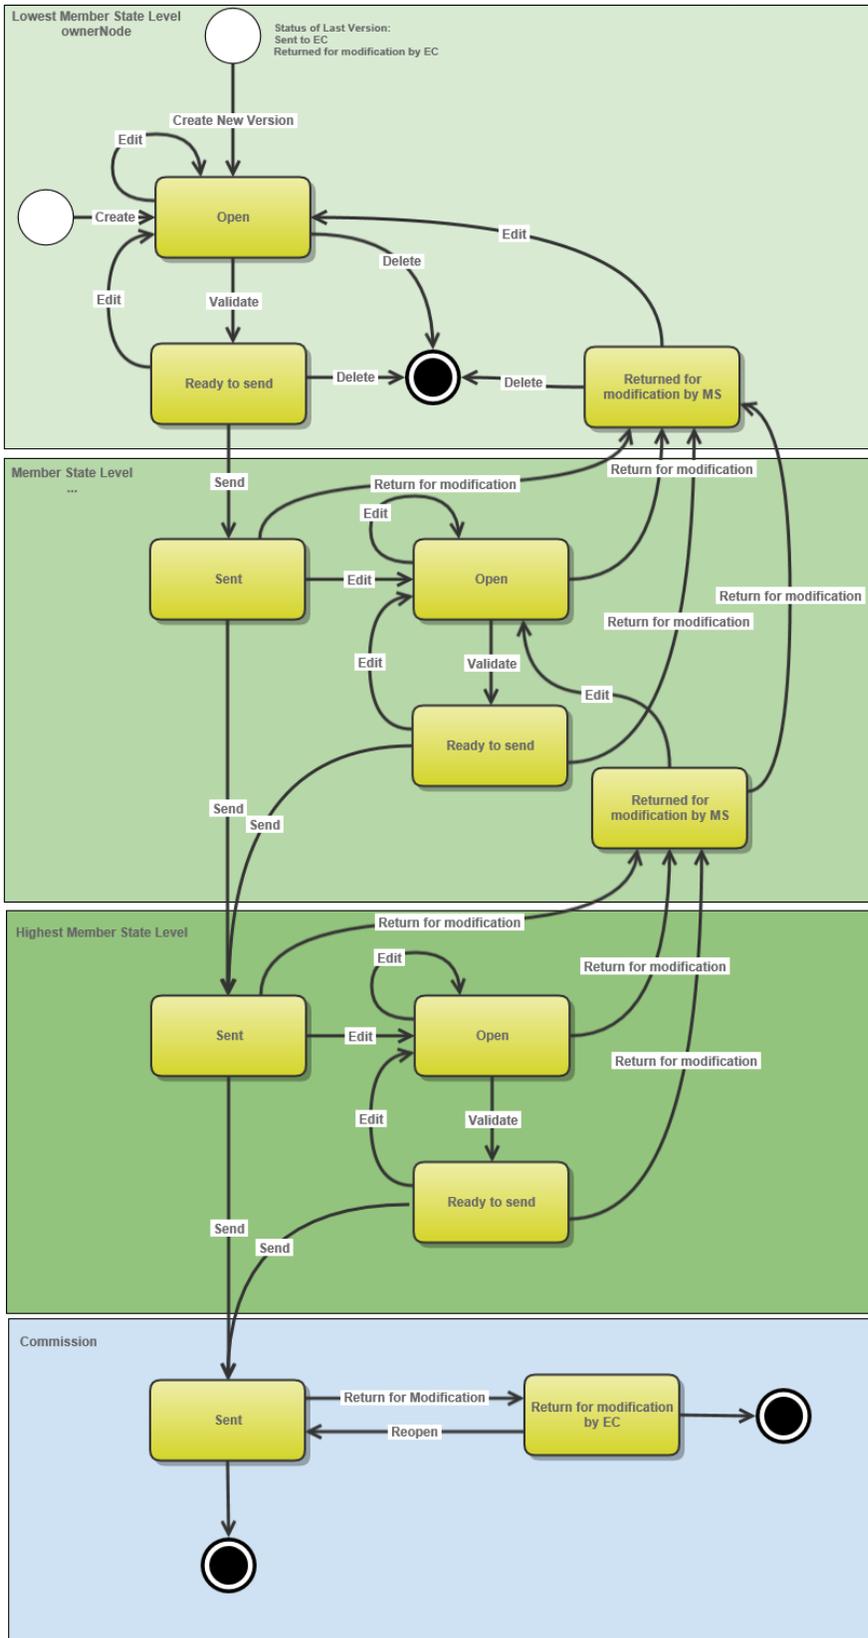

This document doesn't describe the interaction between SFC2014 and CATS/COMBO systems however an electronic exchange of some of the CDS documents between SFC and CATS is foreseen (similar to what is already in place for Annual Accounts).

## **Workflow**

This section shows the lifecycle to create and manage the CDS.

If the Commission returns a CDS a new version has to be created and go through the whole process. There are no modifying CDS once they have been submitted. The Commission cannot change it – only respond.

<b>CDS</b>	Control Data and control Statistics
<b>EAFRD</b>	European Agricultural Fund for Rural Development
<b>EAGF</b>	European Agricultural Guarantee Fund
<b>ECAS / EU Login</b>	European Commission Authentication Service Until 04.11.2016 the EU Login was labelled as ECAS
<b>eDAMIS</b>	Electronic Dataflow Administration and Management Information System
<b>Integral/Non Integrals Documents</b>	Integral documents are documents sent to EC once the container object they belong is sent to EC. Non-integral documents can be sent at any time independently of the status of the container object.
<b>Node</b>	<p>Depending on the political/geographical organisation of each country, a Member State can manage business objects, in the context of the SFC2014 application, in a centralised or decentralised manner.</p> <p>To represent all the Member States and the possible decentralisations inside each Member State, the notion of a Node has been introduced. A Node is a collection of users, representing the Commission, a Member State, a regional or a local Authority. Countries with a centralised management structure will only have a single Node, while other countries with a more decentralised structure could have a lot of them. Each user of the system can have one or more user profiles, each giving access to a specific node.</p> <p><a href="https://ec.europa.eu/sfc/en/2014/document/sfc2014-node-hierarchies">https://ec.europa.eu/sfc/en/2014/document/sfc2014-node-hierarchies</a></p>

## General

### *Version Information*

The Version Information contains information on the identification and status of the CDS Version like the Paying Agency code and description, the Version Number, the Status, Period, the Node where it currently resides and also the Claim year period. It also shows the results of the last validation done on this CDS Version.

The list of EAFRD CCI(s) is automatically displayed by the system based on the Paying Agency(ies) set in the accepted Declarations of Expenditure (DoE) related to the CDS Claim Year (for Claim Year YYYY = DOE YYYYQ1 to YYYYQ4).

The Flag EAGF indicate that the CDS version concerns EAGF. It automatically set based on the Paying Agencies reference data.

Only the National Reference can be updated:

1. Clicking on the **EDIT** button  of the Version information will allow you to update the National Reference.

## Validate the CDS

<b>REMARK</b>	<p>The CDS can be validated only if its status is '<b>OPEN</b>'.</p> <p>It is a must to have the role of <b>MS Paying Agency</b> or <b>MS Coordination Body Update</b>.</p>
---------------	---

1. Click on the [Validate](#) link to validate the CDS.

<b>REMARK</b>	<p>An <b>ERROR</b> will block you from sending the CDS. The error(s) should be resolved and the CDS must be revalidated. <b>NOTE</b> that a <b>WARNING</b> does not block you from sending it.</p>
---------------	--

The system validates the following information:

Code	Validation Rule	Severity
	The system validates the integrity of the input fields	

CDS_010	Validate that at least one Official in Charge of the Member State exists	<b>ERROR</b>
CDS_020	Validate that the Control Data and Control Statistics Paying Agency code is valid.	<b>ERROR</b>
CDS_030	Validate that all integral documents have at least one attachment with a length > 0	<b>ERROR</b>
CDS_040	Validate that all documents that required validation have been successfully validated (= all attachments of the document are valid)	<b>ERROR</b>
CDS_050	Validate that all mandatory documents have been uploaded or already sent in a previous Control Data and Control Statistics version	<b>WARNING</b>

After all errors have been resolved the status of the CDS becomes **READY TO SEND**.

Example of validation window:

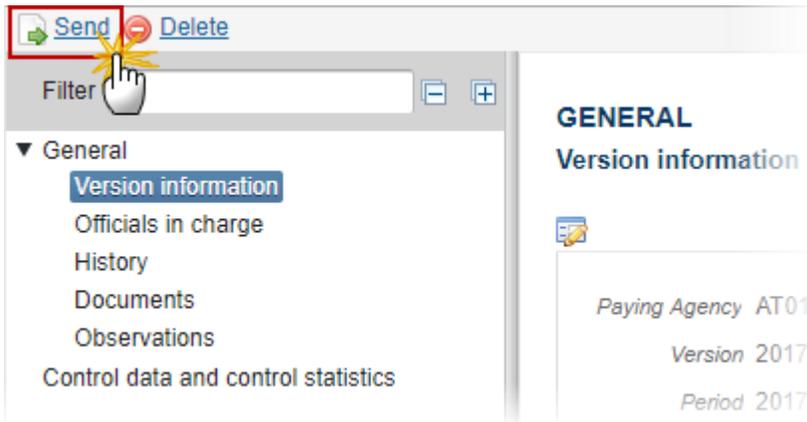

#### Latest validation results

SEVERITY	CODE	MESSAGE
Info		Control data and statistics version has been validated.
Warning	50	Not all mandatory documents have been uploaded or have been sent in a previous version

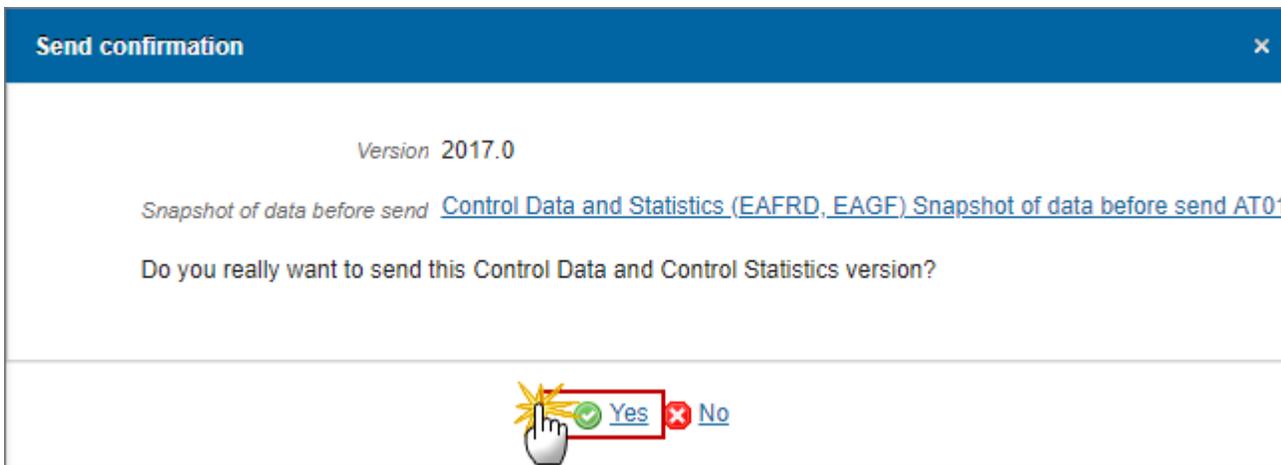

## Send the CDS

<b>REMARK</b>	<p>The CDS can only be sent once the <b>Validation Errors</b> have been removed and the status is '<b>READY TO SEND</b>'.</p> <p>It is a must to have the privilege to send the CDS, the user has the role <b>MS Coordination Body Send</b> in order to send it to <u>EC</u>. To send the CDS to an <u>upper MS Node</u> it is also valid <b>MS Paying Agency Send</b>.</p> <p>The "<b>4 eye principle</b>" must be respected. Therefore, the user sending must be different from the user who last validated.</p> <p>The <b>Sending</b> of information by a Member State to the Commission should be <b>electronically signed</b>. Sending of the different objects is generating a snapshot document and after the sending an acknowledge document is generated by the European Commission.</p>
---------------	---

1. Click on the [Send](#) link to send the CDS to the Commission.

The system will ask you to confirm the send action:

2. Click on [Yes](#) to confirm or click on [No](#) to return to CDS.
3. The Sending of information by a Member State to the Commission should be electronically signed.

Sending of the different objects is generating a snapshot document and after the sending an acknowledge document is generated by the European Commission.

This acknowledge document is signed but the Member State was not signing the snapshot document. The EU Login now provides a functionality of signing without forcing the user to have a certificate. The action to sign will only be triggered when sending to the European Commission:
