# Programme (IJG)

## PURPOSE

This document describes the specifications related to Programming under the Investment for Jobs and Growth and goal (IJG) and more specific those related to the Programmes for ERDF, CF, ESF+ and JTF.

## REGULATIONS

More detail regarding the regulation of the Programme IJG can be found in the "[About SFC2021](#)" section of the portal.

## ROLES

Roles involved in the Programme IJG are:

MS Managing Authority (MSMA)	Record the Programme IJG Upload the Programme IJG Documents Consult the Programme IJG Return Programme IJG by MS for Modification Delete the Programme IJG Validate the Programme IJG Prepare the Programme IJG for send to EC Send the Programme IJG Cancel the Programme IJG Create New Version of the Programme IJG
MS Audit Authority (MSAA)	Consult the Programme IJG

As can be seen in the table above, the main role involved in the Programme IJG creation is MS Managing Authority. To create the Programme IJG the User is an identified User and has the role of **MS Managing Authority** with Update rights (**MSMAu**) for all the funds covered by the Programme.

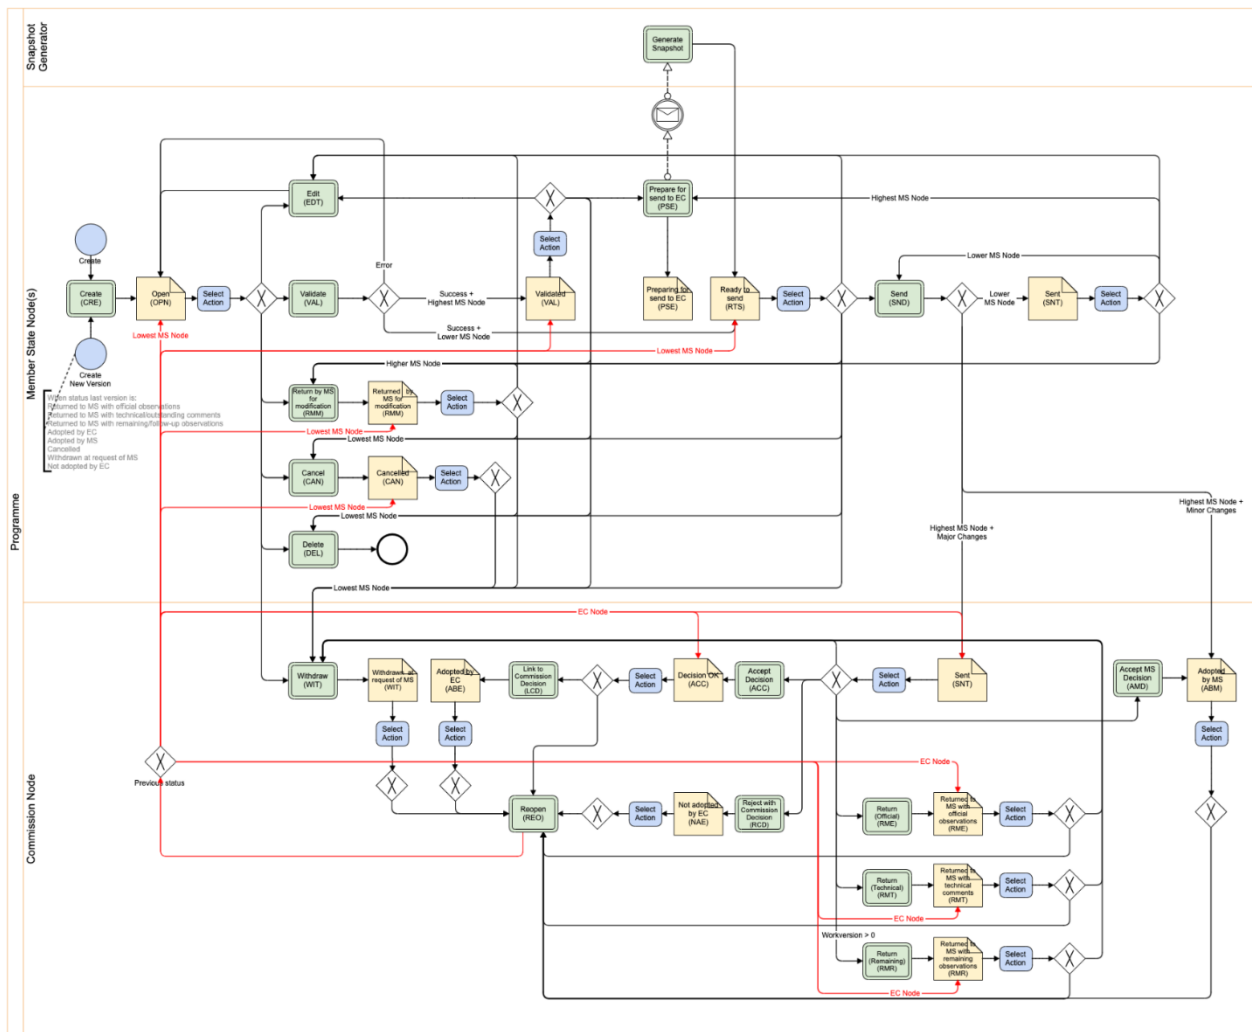

## FUNDS

# Workflow

This section shows the lifecycle to create and manage a Programme IJG. There is no modifying the Programme IJG once it has been submitted. The Commission cannot change a Programme IJG, only respond.

Click [here](#) to see the Programme IJG workflow diagram in high resolution.

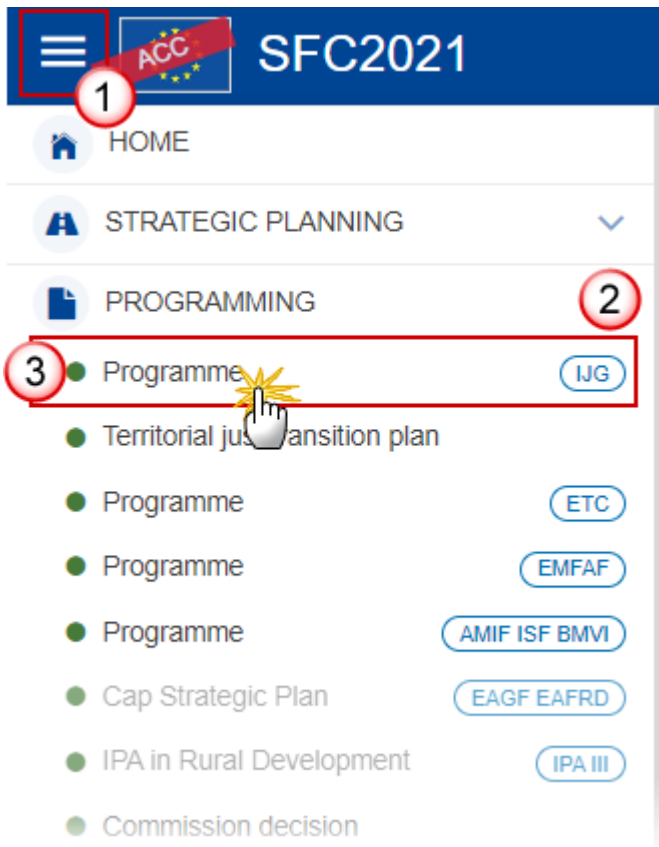

## Create the Programme IJG

<b>REMARK</b>	<p>The User is an identified User and has the role of <b>MS Managing Authority</b> with Update rights (<b>MSMAu</b>) for the Funds that are covered by the Programme.</p> <p>A CCI number must have been <b>ALLOCATED</b> by the Commission in order for you to create a Programme IJG.</p>
---------------	---

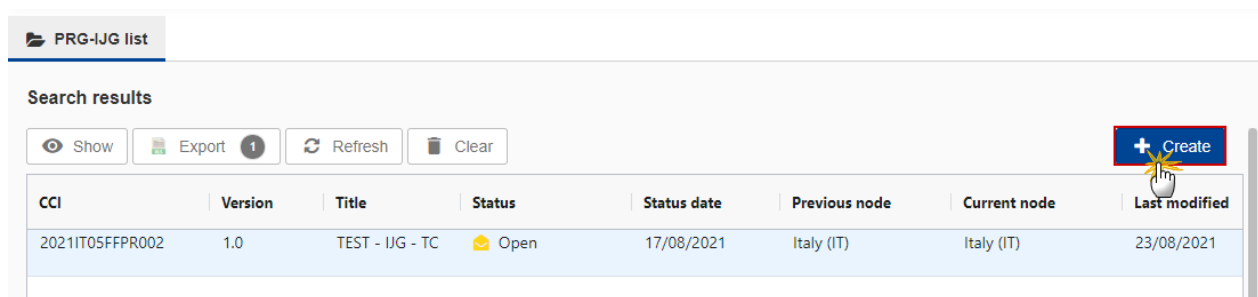

<b>IMPORTANT!</b>	<p>When there is no Partnership Agreement, or no choice made yet in the Partnership Agreement, the User will not be allowed to create the Programme and an alert message in red will be shown: “The choice of the form of the Union contribution to technical assistance (Article 36(4) or Article 36(5) CPR) has not yet been made in the partnership agreement. Therefore, you cannot yet create your programme”.</p> <p>When a choice was made, the User needs to be aware and needs to be sure this is a final choice. This choice is for all MS Programmes and cannot be modified during the Programming period. An alert message in red will be shown: “Attention: Before creating your programme, please make sure the choice of the form of the Union contribution to technical assistance has been intentionally made in the Partnership Agreement and is final. Changing this choice in the Partnership Agreement after creation of this programme will require a delete and a re-create of this programme, resulting in a total loss of all already encoded data on the programme.”</p> <p>“For the outermost regions only” is enabled for Member States with outermost regions (OutermostRegion).</p> <p>When the User doesn't have edit permission for a Fund, the Fund checkbox will be disabled.</p> <p>The Cohesion Fund checkbox will be disabled for Member States not covering the Cohesion Fund.</p>
-------------------	--

1. To access the Programme IJG go to the **Programming** menu and select the **Programme IJG** option:

2. In the search screen click on the **CREATE** button to create a new Programme IJG:

Attention: Before creating your programme, please make sure the choice of the form of the Union contribution to technical assistance (Article 36(4) CPR) has been intentionally made in the Partnership Agreement and is final. Changing this choice in the Partnership Agreement after the creation of this programme will require a delete and a re-create of this programme, resulting in a total loss of all already encoded data on the programme.

### 3. Enter or select the following information:

#### (1) Select the CCI Number

The CCI list contains all allocated IJG (ERDF, CF, ESF+ and JTF) CCIs for the Country of the User's Node and which contain the Funds for which the User is registered (The User needs update permission for all Funds covered by the CCI). If the CCI code is not in the list, the User can request a new CCI via the CCI Request form.

#### (2) Modify or Enter the Title.

The 'Title in EN' field is always present. For each of the official languages of the MS different from English an extra Title field will be present.

**(3)** Select the *First Year* and the *Last Year*.

First Year is pre-filled with 2021 and Last Year with 2027. Both fields can be updated but First Year needs to be smaller or equal than Last Year and between 2021 and 2027.

**(4)** Select the *Funds*.

When the BudgetSource of the CCI indicates multiple Funds 'FF', the system will foresee checkboxes for the Funds 'ERDF', 'CF', 'ESF+' and 'JTF', and will check the Funds checked in the CCI Request. When the BudgetSource of the CCI indicates a mono-Fund, the system will only foresee and check the relevant Fund ('RF'=>'ERDF', 'SF'=>'ESF+', 'CF'=>'CF', 'JTF'=>'JT') and it will not be updateable. At least one Fund needs to be selected.

**(5)** Select the *Source language*.

**(6)** Enter any additional *Comments*.

**(7)** Click on **CREATE** to confirm creation of the the Programme IJG.

The status of the Programme IJG is **OPEN**.

<b>REMARK</b>	<p>The initial Programme IJG structure is created, and a Table of Content (ToC)/Navigation Tree is presented, so the User can enter the structured data of the Programme IJG.</p> <p>The system will automatically:</p> <ul style="list-style-type: none"><li>• For non-TA Programmes, create all Horizontal Enabling Conditions and their related Criteria by leaving Fund and Specific Objective empty (T12).</li><li>• Create one record for the Managing Authority, one for the Audit Authority and one for the Body which receives payments from the Commission (T13).</li><li>• When JTF is selected, enable the TJTP Table of Contents.</li></ul>

## Record/Edit the Programme IJG

### General

This section includes the header data to identify the main characteristics of the Programme IJG.

## Version Information

<b>NOTE</b>	The <b>Version Information</b> contains information on the identification and status of the Programme IJG like the CCI, the Title, the Version Number, the Status, the Node where it currently resides and eventually the Decision information. It also shows the results of the last validation done on this Programme version. The Eligibility Period will automatically be set to 01/01/2021-31/12/2029 when creating the first version.

2. Enter or select the following information:

**(1)** Select the *CCI*.

CCI can only be updated when Version 1. But it can only be replaced by a CCI with the same BudgetSource or a multi-Fund BudgetSource (FF), and the same ObjectSubType. The CCI list contains all allocated CCIs of the same BudgetSource and of the multi-Fund BudgetSource (FF), and of the same ObjectSubType for the Country of the User's Node and which contain the Funds for which the User is registered (User needs edit permission for all Funds covered by the CCI).

**(2)** Enter the *Title in English*.

**(3)** Enter the *Title in* (other language).

For each of the official languages of the MS different from English an extra Title field will be present.

**(4)** Select the *First year* and *Last year*.

In Version 1, First Year is pre-filled with 2021 and Last Year with 2027. Both fields can be updated. In subsequent versions, only the Last Year can be extended up until 2027.

**(5)** Select the *Funds concerned*.

When version = 1 or (> 1 but never adopted), when the BudgetSource of the CCI indicates multiple Funds 'FF', the system will foresee the Funds 'ERDF', 'CF', 'ESF+' and 'JTF'. When the BudgetSource of the CCI indicates a mono-Fund, the system will only foresee the relevant Fund ( 'RF'=>'ERDF', 'SF'=>'ESF+', 'CF'=>'CF', 'JTF'='JT') and it will not be updateable. When programme has been previously adopted by the Commission, then the system will foresee all the Funds 'ERDF', 'CF', 'ESF+' and 'JTF'. This is to allow merging of Programmes covering different Funds. At least one Fund needs to be selected.

When version > 1, Funds existing in the previous adopted major version cannot be unselected.

When unselecting a Fund selected in the current major version, all Fund related information will be deleted. Refer to the Remark below for more information.

**(6)** Select the *Source language*.

**(7)** Enter any additional *Comments*.

**(8)** Click on **SAVE** to save the information.

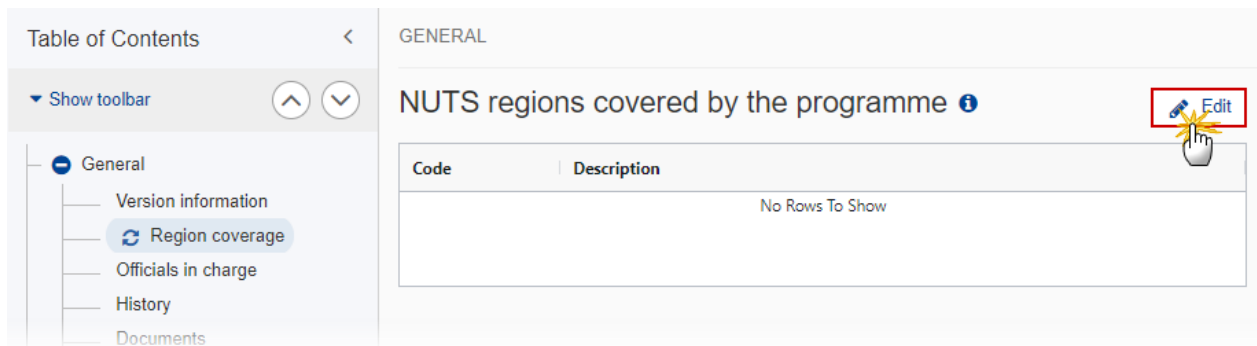

<p><b>REMARK</b></p>	<p>When unselecting a Fund selected in the current major version, all Fund related information will be deleted. An alert message to avoid accidental loss of information will inform the User at the moment of save. The following information referring to the Fund will be removed:</p> <ul style="list-style-type: none"> <li>• Specific Objectives relating to the Fund and not relating to any other Fund of the Programme (T1)</li> <li>• ESF+ Dedicated Priority Types relating to the Fund (T1)</li> <li>• Priorities with a Dedicated Priority Type related to the Fund</li> <li>• Fund/Category of Region combinations on the Priorities</li> <li>• Specific Objectives defined under the Priorities</li> <li>• Indicators (T2, T3)</li> <li>• Dimensions (T4, T5, T6, T7, T8)</li> <li>• Financial appropriations by Year (T10)</li> <li>• Financial allocations by Priority and Fund (T11)</li> <li>• Contributions to InvestEU (except for JTF) (T15A)</li> <li>• Transfers to instruments under direct or indirect management (except for JTF) (T16A)</li> <li>• Transfers between Funds (except for JTF) (T17A)</li> <li>• Transfers to JTF (T18A and T18C)</li> <li>• Transfers back (T20A)</li> <li>• Enabling conditions (T12)</li> <li>• When JTF, the link(s) to TJTP version(s) and the TJTP Toc Item</li> </ul>
----------------------	---

<p><b>NOTE</b></p>	<p>Non-substantial transfer (art. 24(5)), Clerical or editorial corrections (art.24(6)), Approved by monitoring committee, MS amending decision number and MS amending decision entry into force date are only available when programme has been previously adopted by the Commission.</p> <p>Non-substantial transfer (art. 24(5)), MS amending decision number and MS amending decision entry into force date need to be filled in when the MS wants to create a version containing modifications which do not require a Commission Decision. This kind of version will automatically be set to <b>ADOPTED BY MS</b> when sent to the Commission and when only non-decisional parts of the Programme have been modified, or when it is impossible to verify that only minor changes have been applied then after sending to the Commission, the Commission will be able to set the status to <b>ADOPTED BY MS</b>. When MS amending decision number/MS amending decision entry into force date is not null then MS amending decision entry into force date/MS amending decision number should not be null and Non-substantial transfer should be true. Non-substantial transfer (art. 24(5)) and Clerical or editorial corrections (art.24(6)) are exclusive. If needed, under the non-substantial transfer also clerical corrections are allowed.</p>

## Region Coverage

<b>NOTE</b>	On entering this page, the country button corresponding to the Country of the management Node of the programme will be focussed and the corresponding available Regions will be shown. The 2019 NUTS codes will be used (Established by Regulation (EC) No 1059/2003 as amended by Commission Regulation (EC) No 2019/1755).
-------------	--

1. Click on the **EDIT** button to modify the Regions Covered:

The screenshot shows a software interface with a sidebar on the left and a main content area on the right. The sidebar is titled 'Table of Contents' and includes a 'Show toolbar' button and a list of menu items: 'General', 'Version information', 'Region coverage' (highlighted with a blue bar), 'Officials in charge', 'History', and 'Documents'. The main content area is titled 'GENERAL' and contains the heading 'NUTS regions covered by the programme' with an information icon. Below the heading is a table with two columns: 'Code' and 'Description'. The table is currently empty, displaying 'No Rows To Show'. An 'Edit' button with a pencil icon is located in the top right corner of the table area, highlighted with a red box and a hand cursor.

The Select Regions pop-up window appears:

-------------	---

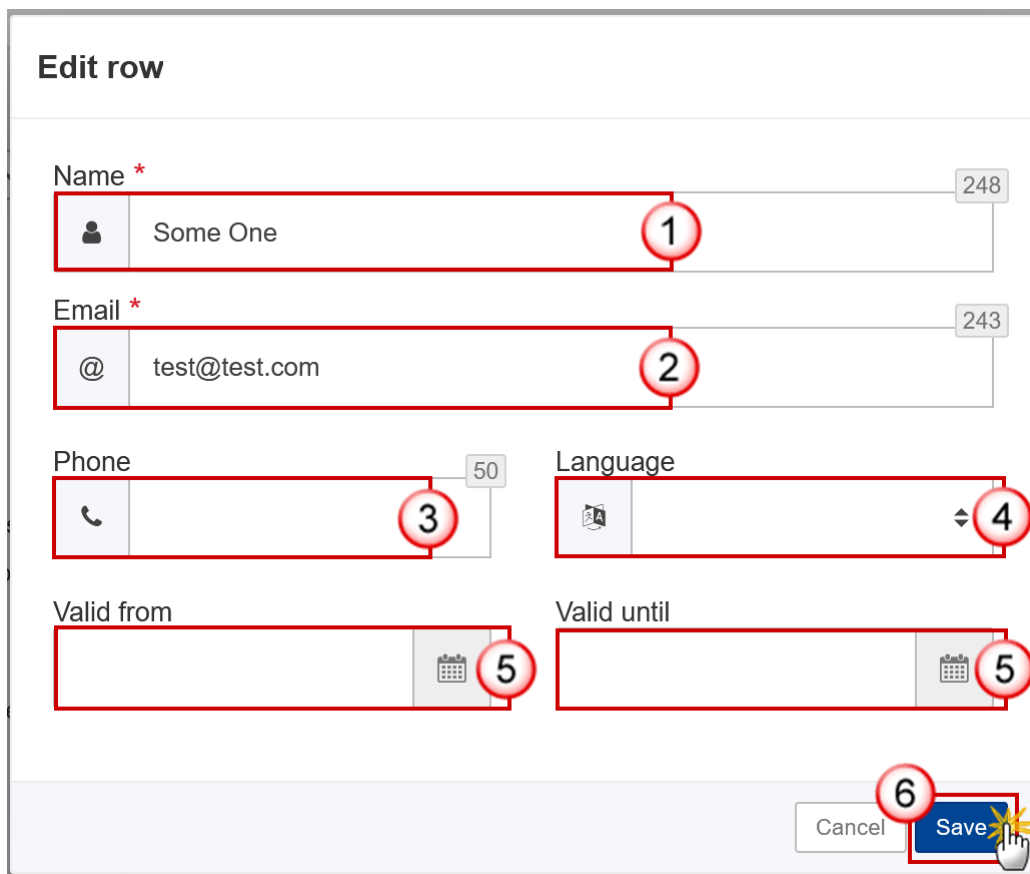

- Click on the **ADD** button  to add a new official in charge.

- Clicking on the **EDIT** icon  of a row will allow you to modify the information of this official.
- Clicking on the **DELETE** icon  of a row will allow you to delete the official in charge selected.

1. Click on the **ADD** button to add a new Official in Charge:

The Edit details pop-up window appears:

2. Enter or select the following information:

(1) Enter the *Name*.

(2) Enter the *Email*.

The format of the Email address will be validated by the system and should be unique.

(3) Enter the *Phone* number.

(4) Select the *Language*.

(5) Enter the *Valid from* and *Valid until* dates.

The *Valid until* date should be greater than the *Valid from* date.

(6) Click on **SAVE** to save the information.

## History

This section shows all the actions that have been taken on the Programme IJG since it was created, for example:

The screenshot shows a software interface with a 'Table of Contents' on the left and a 'History' section on the right. The 'Table of Contents' includes 'General', '1 Strategy', '2 Priorities', '3 Financing plan', '4 Table 12 Enabling conditions', '5 Programme authorities', and '6 Partnership'. The 'History' section displays a vertical timeline of three actions:

- 25/11/2021** 16:55: Action **Edit** on node **Italy** by **Gsb, Ste**
- 13/9/2021** 16:07: Action **Edit** on node **Italy** by **Joffre (External), Sophie**

(6) 'Use of enhanced proportionate arrangements (PRG.UEPA)' can be sent by MSAA Users with update and send permissions

## Uploading & Sending Documents

Multiple documents can be uploaded in the Programme IJG.

- Clicking on the **ADD** button  will open a pop-up window allowing you to add a new document type with attachments.
- Selecting a document row and clicking on the **VIEW** icon  will allow you to view the document information.
- Selecting a document row and clicking on the **EDIT** icon  will allow you to modify the document information. If a document of type 'Other Member State Document' must be sent, you can select the edit icon in order to send the document.
- Selecting a document row and clicking on the **DELETE** icon  will allow you to delete the document and all attachments.

<b>REMARK</b>	<p><b>Integral Documents</b> (Official Proposal etc) are only sent - together with the encoded data – once the Programme IJG is sent to the EC.</p> <p><b>Referential/non-integral Documents</b> (ie. 'Other Member State Document') can be sent at any time independently of the status of the Programme IJG.</p> <p>The 'Other Member State Document' type demands a manual submission (they are NOT sent automatically when the object is sent to the EC).</p> <p><b>A non-integral document is only visible to the Commission when the SENT DATE is visible.</b></p>

- Click on the **ADD** button to add a row of information to this table.

- Click on the **EDIT** icon to modify the information in a row.
- Click on the **DELETE** icon to remove the information in a row.

1. Click on the **ADD** button above the **Specific Objectives** table to add the information:

The screenshot shows a web interface for '2.1.1. Priority: 1 - Priority 1'. On the left is a 'Table of Contents' sidebar with a 'Show toolbar' option. The main content area has a breadcrumb '2. PRIORITIES → 2.1. Priorities other than technical assistance' and a title '2.1.1. Priority: 1 - Priority 1' with a reference to 'Article 22(2) and point (c) of Article 22(3) CPR'. Below the title is a section for 'SPECIFIC OBJECTIVES' with an 'Add' button highlighted by a red box and a mouse cursor. A table with columns 'Fund', 'Policy objective', 'Specific objective', and 'Action' is shown below, containing the text 'No Rows To Show'. At the bottom, there is a section for 'FUNDS, CATEGORIES OF REGION AND CALCULATION BASIS FOR UNION SUPPORT' with another 'Add' button.

The Add row pop-up window appears:

### Edit row

The 'Edit row' pop-up window displays the following information:

- Priority: **Priority 1**
- Fund \*:  (labeled with a red circle 1)
- Specific objective \*:  (labeled with a red circle 2)
- Buttons:  and  (labeled with a red circle 3 and a mouse cursor).

2. Enter or select the following:

(1) Select the *Fund*.

The Fund list contains all Funds covered by the Programme as indicated in the Programme Version page, except when the Priority is a Dedicated Priority, then only the Funds valid for the Dedicated Priority Type are listed.

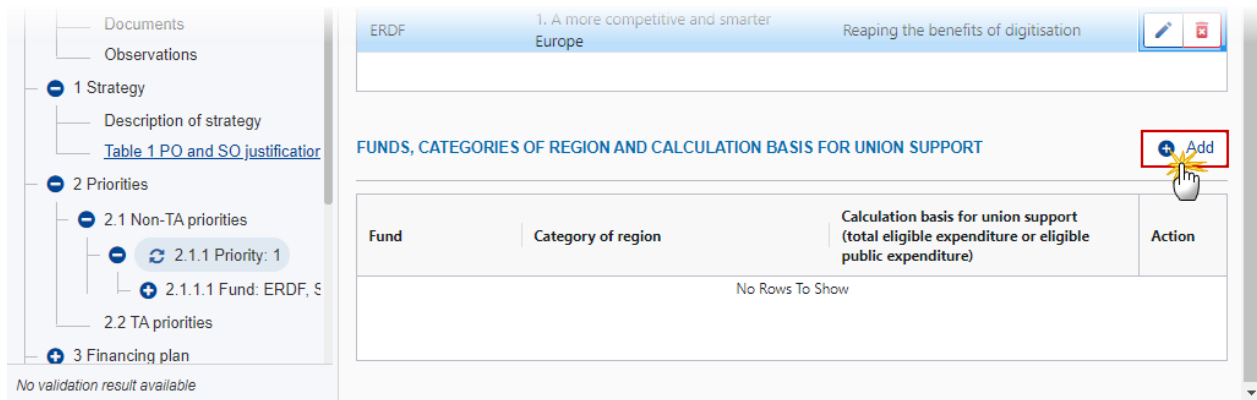

**(2)** Select the *Specific Objective*.

For non-Dedicated Priorities, the Specific Objective list is limited to the Specific Objectives selected in Table 1 and relevant for the Fund selected above. For Dedicated Priorities, the Specific Objective list is limited to Specific Objectives relevant to their Dedicated Priority Type. When adding a new Specific Objective to a Priority, the list is limited to Specific Objectives of the same Policy Objective. A Priority can only relate to 1 Policy Objective. For the new dedicated ERDF STEP priorities, the list of SO will be limited to the Specific Objectives 1.6 and 2.9 and for the new dedicated CF STEP priorities, the list of SO will be limited to the Specific Objective 2.9 in case they are already selected in table 1.

**(3)** Click on **SAVE** to save the information.

<b>REMARK</b>	<p>The new existence of a distinct Fund/Specific Objective combination for whatever Priority will automatically create records for Thematic Enabling Conditions and their related Criteria, valid for this Fund/Specific Objective combination in the Enabling Conditions Table 12, if not yet exists. The disappearance of the last occurrence of a distinct Fund/Specific Objective combination for whatever Priority will automatically delete the records for Thematic Enabling Conditions valid for this Fund/Specific Objective combination and not valid for other Fund/Specific Objective combinations existing in this Programme, in the Enabling Conditions Table 12.</p> <p>On Delete of a Priority/Fund/Specific Objective combination, all Priority/Fund/Specific related information will be deleted. An alert message to avoid accidental loss of information will inform the User at the moment of save. 4. Enter or select the following:

**(1)** Select the *Programme Specific Result Indicator* from the list.

The Programme Specific Result Indicators are maintained by the Member State per Programme and are defined once and can then be used under different Priorities, Specific Objectives and Funds. In the edit page, only one of them must be selected. The table contains all previously defined Programme Specific Result Indicators, independently from Priority, Specific Objective or Fund.

**(2)** Select the *Category of region*.

The Category of Region list contains all Categories of Region defined against the Priority and Fund. When the Priority and Fund covers only one Category of Region, this value is set by default. Category of Region is only enabled for ERDF and ESF+ and is mandatory.

(3) Enter the *Baseline or reference value*.

(4) Enter the *Target (2029)*.

The Target field doesn't exist under ESF+ Specific Objective ESO4.13.

## A Summary

<b>NOTE</b>	<p>The records are automatically foreseen by the system by crossing the Programme structure (Priority, Fund, Category of Region, Specific Objective) with the Operation Type detail (Operation Type, Specific Objective(s), Indicator) based on their common Specific Objective(s).</p> <p>Part A will <b>automatically</b> take information from part B and create the summary table broken down by Priority/Fund/Category of Region/Specific Objective/Operation Type and Indicator triggering reimbursement. Therefore, the number of lines in table A will depend on the particularity of the SCO scheme(s) included in Appendix 1.</p> <p>There are four fields that need to be <b>manually</b> introduced in Part A i.e. “Estimated proportion of the total financial allocation within the priority to which the SCO will be applied”, “Code for the type of operation”, “Code for the indicator triggering reimbursement” and “SCO non applicable”</p>

1. Click on the **EDIT** button to edit the information:

The screenshot shows a web application interface. On the left is a 'Table of Contents' sidebar with a 'Show toolbar' button and a list of sections: 4 Table 12 Enabling conditions, 5 Programme authorities, 6 Partnership, 7 Communication & visibility, 8 Table 14 Use of unit costs, lump s, Appendix 1 (selected), A Summary (highlighted), B Detail, C Calculation, Appendix 2, and Appendix 3. At the bottom of the sidebar, it says 'All validation rules were passed'. The main content area is titled 'APPENDIX 1: UNION CONTRIBUTION BASED ON UNIT COSTS, LUMP SUMS AND FLAT RATES' and 'A. Summary of the main elements'. Below the title is a table with the following columns: Priority, Specific objective, Estimated proportion of the total financial allocation within the priority to which the SCO will be applied in % (estimate), Code, Description, Code, Description, Indicator triggering reimbursement, Unit of measurement for the indicator triggering reimbursement, Type of SCO, and Amount (in EUR) or percentage of the SCO. The table is currently empty, showing 'No Rows To Show'. An 'Edit' button with a pencil icon is located in the top right corner of the table area.

The Edit details pop-up window appears:

## A. Summary of the main elements

Reference: Article 94 CPR

Priority	Fund	Category of region	Specific objective	Estimated proportion of the total financial allocation within the priority to which the SCO will be applied in % (estimate)	Code	Description
1	ERDF	Transition	RSO1.5. Digital connectivity	<input type="text" value="10%"/>	<input type="text" value="001"/>	Operation type 1

Description	Code	Description	Unit of measurement for the indicator triggering reimbursement	Type of SCO	Amount(in EUR) or percentage of the SCO	SCO non applicable
Operation type 1	<input type="text" value="RCR54"/>	Indicator 1	Measurement unit 1	Unit cost	10000	<input type="checkbox"/>

Cancel

2. Enter the following:

**(1)** Enter the percentage for *Estimated proportion of the total financial allocation within the priority to which the SCO will be applied in% (estimate)*.

The sum of the Estimated Proportion % per Priority must be lower than or equal to 100. This will be checked by a Validation rule (VAL.074). This field is mandatory. The information to be provided is at the level of each line of Part A. If there are several lines for the same SCO within a priority axis, then the sum of all these lines must be equal to the estimated proportion of the total financial allocation within the priority to which the SCO will be applied.

**(2)** Enter the *Code* for the *Type(s) of operation covered*.

The Operation Type Code list contains all Intervention Field codes (and their description) valid for the Specific Objective, Fund and selected in Table 4 for that Priority, Fund, Category of Region, Specific Objective. This field is mandatory.

If an SCO scheme applies to all/a significant number of types of interventions in the programme, choose one type of intervention in Part A (if possible, the most relevant one for the SCO scheme) and indicate, in part B (under Description of operations), all the other types of interventions covered by the SCO scheme.

**(3)** Enter the *Code* for the *Indicator triggering reimbursement*.

The Indicator Code list contains all Common Indicator codes (and their description), Output and Result, already used in Tables 2 and 3, for the Priority, Fund, Category of Region, Specific Objective combination.

This field is mandatory when the SCO uses common indicators (to be selected from the drop-down list). The field should be left empty in case the SCO uses programme specific indicators.

This field is not mandatory for Material Deprivation (ESO4.13) which doesn't have a Table 4.

**(4)** Select the tick box to indicate whether the SCO is *non applicable*.

It is possible that one Specific Objective covers multiple Priorities and/or Funds and/or Categories of region, but some of these Priorities and/or Fund and/or Categories of region are not concerned by a proposed SCO scheme in Appendix 1. However, Part A of Appendix 1 will create separate lines for each Priority/Fund/Category of region covered by the given Specific Objective (i.e. even for those which are not part of SCO scheme). In such case, tick the box in column SCO non applicable for those Priorities/Funds/Categories of region for which the SCO scheme does not apply.

When SCO is set to be non-applicable, the Estimated Proportion %, the Intervention Field Code and the Indicator Code are removed.

**(5)** Click on **SAVE** to save the information.

## Appendix 2

### *A Summary*

**NOTE**

For non-TA Programmes, the records are automatically foreseen by the system by crossing the Programme structure (Priority, Fund, Category of Region, Specific Objective) with the Operation Type detail (Operation Type, Specific Objective(s)) based on their common Specific Objective(s). For TA Programmes, the records are automatically foreseen by the system by crossing the Programme structure (Technical Assistance Article 37 Priorities, Fund, Category of Region) with the Operation Types.

Appendix 2 is created on the basis of the specific objectives in the programme. However, in the case of a Technical Assistance priority in a non-TA programme, there are no specific objectives linked to it in the programme. Therefore, if Article 37 CPR is used under a TA priority in a non-TA programme, Appendix 2 cannot be filled in directly in SFC (as structured data). In this situation, the Member State is requested to fill in, in word format, Appendix 2 of Annex V to the programme template as provided in the CPR and send it to the Commission via SFC2021 under the General -> Documents section, using the document type 'Other Member State document'.

Appendix 2 is created on a different basis for the TA programmes. Therefore, if Article 37 CPR is used under a TA programme which has no specific objectives itself, the Appendix 2 can be filled in in a structured format directly in SFC2021 (i.e. no need to upload a word version as 'Other Member State document').

1. Click on the **EDIT** button to edit the information:

The screenshot shows the SFC2021 interface for 'APPENDIX 2: UNION CONTRIBUTION BASED ON FINANCING NOT LINKED TO COSTS'. The main section is 'A. Summary of the main elements' with a reference to 'Article 95 CPR'. An 'Edit' button is highlighted in the top right corner. Below the title is a table with the following structure:

Priority	Specific objective	Type(s) of operation covered			Indicator triggering reimbursement			reimbursement method used to reimburse the beneficiary	
		The amount covered by the financing not linked to costs	Code	Description	Conditions to be fulfilled/results to be achieved	Code	Description		conditions to be fulfilled/results to be achieved triggering

At the bottom left, a status message reads: 'All validation rules were passed'.

The Edit details pop-up window appears:

2. Enter the following:

**(1)** Enter *The amount covered by the financing not linked to costs*.

The Amount Covered is mandatory for applicable FNLC records only, the Intervention Field Code is mandatory except for Material Deprivation (ESO4.13) which doesn't have a Table 4 and for non-applicable FNLC records.

**(2)** Enter the *Code* for the *Type(s) of operation covered*.

The Operation Type Code list contains all Intervention Field codes valid for the Specific Objective, Fund.

For non-TA Programmes, the Operation Type Code list contains all Intervention Field codes (and their description) valid for the Specific Objective, Fund and selected in Table 4 for that Priority, Fund, Category of Region, Specific Objective. For TA Programmes, the Operation Type Code list contains all Technical Assistance Intervention Field codes (and their description) selected in Table 4 for that Technical Assistance Article 37 Priority.

**(3)** Enter the *Code* for the *Indicator triggering reimbursement*.

The Indicator Code list contains all Common Indicator codes, Output and Result, already used in Tables 2 and 3, for the Priority, Specific Objective combination.

For non-TA Programmes, the Indicator Code list contains all Common Indicator codes (and their description), Output and Result, already used in Tables 2 and 3, for the Priority, Fund, Category of Region, Specific Objective combination. For TA Programmes, since there are no Indicator Tables for Technical Assistance Article 37, the Indicator Code list will be empty.

(4) Select the tick box whether the *FNLC* is *non applicable*.

When FNLC is set to be non-applicable, the Amount Covered, the Intervention Field Code and the Indicator Code are removed.

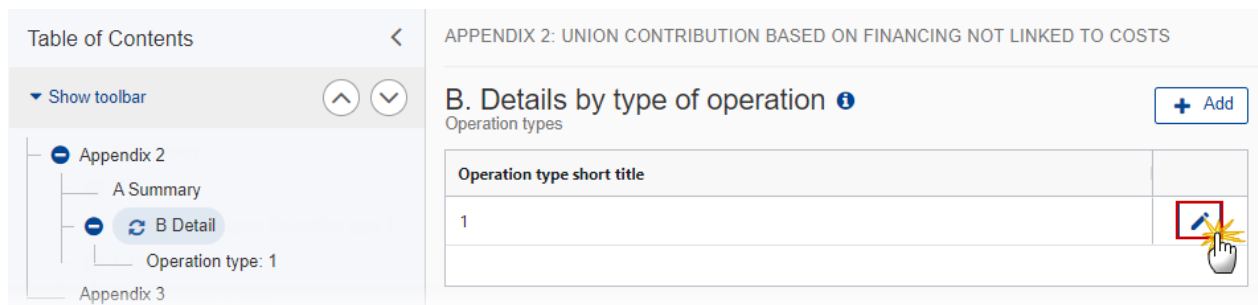

(5) Click on **SAVE** to save the information.

## ***B Detail***

<b>REMARK</b>	The Operation Type Short Title is needed to enable the User to link an Intervention Field Code in part A to the Operation Type in Part B. For each Operation Type created/deleted, an entry is created/deleted in the Table of Contents (ToC). <b>There should be at least 1 Operation Type and that one can never be deleted.</b>
